Dear Mr. Chairman: I am transmitting herewith an updated version of an earlier Subcommittee print entitled, *A Compilation of State Sunset Statutes.*

The original version of this report was issued by the Committee on Rules in December 1981. The demand for this report was so great that the supply was soon exhausted, and we continue to receive requests from colleges and universities, as well as businesses and individuals.

The report has been amended to include actions by the States relating to sunset statutes through December 1982.

With kindest personal regards, I remain

Sincerely yours,

INTRODUCTION

As part of our continuing exploration of proposals to increase the effectiveness of congressional oversight, the Subcommittee on the Legislative Process has, in the past year, compiled and reviewed "sunset" legislation from 35 states that currently have such statutes on their books.

With the aid of the Congressional Research Service, the Subcommittee staff has assembled these statutes in one volume.

Since 1976, when Colorado became the first state to enact such legislation, "sunset" has worked itself firmly into the language and usually means a provision to end a program or agency by a target date unless it is renewed by legislative action.

An important part of sunset is the review that must accompany any weighing of whether or not to dispense with a program or agency or to change the entities being reviewed in some substantive way.

The goals of this program review are to 1) make sure that the taxpayers' money is not being wasted on ineffective or inefficient programs; and 2) make certain that the purpose of the program or the mandate of the legislative body is being adhered to.

Stated so broadly, the intent of sunset-type legislation on both the state and federal level is the same. Essentially, it is to improve government by eliminating waste, making changes in programs if changes are warranted, or eliminating programs or agencies altogether if this is in the taxpayers' best interest.

The drive for more effectual yet streamlined government that inspired so many of the states to adopt sunset legislation has also moved Congress to consider similar proposals within the past several years. In the 94th Congress, when the sunset concept made its debut, more than 70 such bills were introduced, indicating the wide appeal and popularity of this new approach to limiting bureaucratic growth.[1]

To date, only one sunset bill has been brought to the Floor of either House for a vote. In the 95th Congress, the Senate passed S. 2, which had been introduced by Senators Edmund S. Muskie, William Roth, and John Glenn. It contained automatic termination features and a ten-year review schedule. It was voted upon too late in the session to allow time for House action.

Every Congress since the 94th, however, has conducted hearings on sunset-related measures.

In the 96th Congress, a new subcommittee, the Subcommittee on the Legislative Process, was established within the Rules Committee and assigned jurisdiction over various oversight proposals, including sunset. The Subcommittee commenced its work with a series of extensive hearings.

---

[1] These proposals were dubbed "sunset" after the Colorado prototype, the nation's first Sunset Law. The phrase "sunset law," as recounted in "Safire's Political Dictionary" (William Safire, Ballantine Books, New York, 1980), was coined by a member of the Board of Directors of Colorado Common Cause at a May, 1975, meeting.

In this first session of the 97th Congress, the Subcommittee has held several hearings on various proposals to improve congressional oversight, including H.R. 2, the Sunset Act of 1981, introduced by Representative James J. Blanchard, and H.R. 58, the Sunset Review Act of 1981, introduced by Representative Butler Derrick and Gillis W. Long.[2]

Compared to the relatively quick initial acceptance of sunset on the state level, the proposals before Congress have been subjected to intense scrutiny.

There are several reasons for this more deliberative course of congressional examination of sunset. Not unnaturally, they are grounded in the different ways government is conducted within state and federal legislative and constitutional parameters.

State governments are not simply the federal government drawn on a smaller scale. Although all 50 states have bicameral legislatures (with the exception of Nebraska) and an elected executive official, the inherent differences in legislative process, scope, and implementing mechanisms make it impractical, if not impossible, to transfer the sunset idea directly from a state body to the federal one without making some adjustments to compensate for the incompatabilities.

A Congressional Research Service study describes the relationship that exists between state and federal approaches to sunset:

> The precise evolution of sunset proposals at the Federal level reflects the influences of the legislative process in the Congress and the structure of political institutions at the Federal level more than it reflects any particular State law. In other words, the Federal sunset bills do not represent direct adaptations of any State sunset law; rather they constitute simultaneous and somewhat independent developments.[3]

In most of the states, sunset laws focus on agencies, commissions, and licensing boards, a fact that is partly due to differences in the state and federal budget procedures.

On the federal level, most programs are appraised annually through the appropriations process and periodically through the authorization process. In the course of considering authorizations and appropriations, Congress holds hearings, conducts investigations, solicit agency views, and utilizes an oversight and investigative infrastructure that includes committee staff and congressional support agencies such as the General Accounting Office, the Congressional Research Service of the Library of Congress, the Office of Technology Assessment, and the Congressional Budget Office.

The combination of authorization and appropriations represents a complex, institutionalized control over the life of programs that is usually absent in the states, where citizen legislators meeting once very two years has been a not uncommon arrangement.

---

[2] H.R. 2 would bar spending funds for programs and eliminate tax expenditures unless these are reviewed and re-authorized at least once in a ten-year period. Certain programs, such as social security, veterans benefits, and civil rights programs would be exempt from the re-authorization requirement. H.R. 58 would not automatically terminate programs or tax expenditures; neither would it exempt any from review. Termination would have to be voted upon by the Congress. Both bills would establish a schedule for oversight, and an inventory of federal programs.

The problem of a lack of systematic control over government entities was addressed by the Colorado General Assembly when it enacted the first sunset law in 1976. The legislation limited the life of boards and commissions to six years unless public need for an agency could be demonstrated. As the Assembly stated:

> The General Assembly finds that state government actions have produced a substantial increase in numbers of agencies, growth of programs, and proliferation of rules and regulations and that the whole process developed without sufficient legislative oversight, regulatory accountability, or a system of checks and balances. The General Assembly further finds that by establishing a system for the termination, continuation, or re-establishment of such agencies, it will be in a better position to evaluate the need for the continued existence of existing and future regulatory bodies.[4]

Colorado's prototype legislation, featuring the action-forcing mechanism of automatic termination, was replicated in some form in more than 30 states between 1976 and 1981. This was part of a general movement of state legislatures to fashion themselves into bodies better equipped to deal with increasingly complex problems, the most pressing being heightened budgetary constraints due to inflation.

In addition to adopting sunset laws to help guard against wasteful spending, many states took other steps within the last decade to improve their capacities to govern. Common approaches consisted of increasing legislative salaries, adopting annual sessions, enlarging legislative staffs, and modifying committee structures. All these measures, according to Bruce Adams of Common Cause, who has detailed the background of the sunset movement, led to increased legislative program evaluation.[5]

This would indicate that the state sunset laws, in conjunction with other positive steps taken by state legislatures, have fulfilled at least some of their sponsors' hopes.

The overall goal of state sunset legislation remains open to thoughtful analysis. Frank H. Bailey, Executive Director of the Council of State Governments, poses this question: "Is termination a goal of sunset or a tool to stimulate program evaluation by an established timetable?" [6]

This is a key question and continues to be debated on both the state and federal level. The design of sunset or sunset-related laws will vary, depending on how the question is answered.

It is not our purpose in this preface to attempt to answer the question of whether the ultimate aim of sunset law is better oversight or program termination. On the federal level, that question has most recently been addressed—and answered as each sponsor feels is best—by the sunset and oversight related bills that have been introduced in the 97th Congress. On the state level, the issue is still in flux, as demonstrated by the amendments many states continue to add to their original sunset legislation.

ACKNOWLEDGEMENTS

The Subcommittee on the Legislative Process is concerned with sunset and oversight measures applicable on the federal level. The rationale behind the Subcommittee's presentation of state sunset statutes—besides being a response to many requests to bring out such a volume—is the recognition that sunset had its origin in the states. The concept of sunset cannot be evaluated in relation to what is possible on the federal level without some knowledge of how sunset is designed to work in the states.

In the summer of 1981, Mary Anna Robinson, staff assistant of the Subcommittee on the Legislative Process, conducted, at the direction of Chairman Long, a brief survey, by telephone and letter, of states which had enacted some version of sunset legislation. The purpose was to discover how well sunset was actually working, after it had been in place for a few years in several states.

Sources contacted included legislative committee staff directors, officials of legislative budget boards and fiscal affairs divisions, legislative audit and review commissions, performance audit managers, and other officials charged with carrying out the mandates of state sunset laws.

Ms. Robinson's findings on the pros and cons of various sunset measures tally with those of the National Conference of State Legislatures. For informational purposes, and to place the statutes in context, the report on state sunset laws produced by the National Conference of State Legislatures, setting forth briefly the evolution and present status of sunset legislation in the states, is included in this volume.

To enhance the usefulness of this compilation of statutes, an annotated bibliography of the literature on sunset legislation, compiled by the Congressional Research Service of the Library of Congress, is included.

The Subcommittee wishes to thank the National Conference of State Legislatures for permission to include their work. Special thanks for their contributions are also extended to Sherry B. Shapiro, Library Services Division of CRS, Rita Reimer, American Law Division of CRS, and Ben Byrd of the Government Printing Office.

SUNSET REVISITED

I. INTRODUCTION

When Colorado passed the first sunset law in 1976, it was heralded as a positive step for the legislative branch of government. State after state followed suit and as of 1980, 34 states have instituted some form of sunset law.

Common Cause supported and lobbied for sunset legislation that adhered to the basic tenets it had developed and postulated. The press praised legislative bodies that enacted sunset laws. Legislators espoused the principles of legislative oversight and congratulated themselves after the passage of sunset legislation.

But now, four years later, the initial excitement has dissipated and the actual day-to-day grind has begun. Rendering operable the simple concept of sunset has proven to be complex and time consuming. The question remains: can sunset work?

The ascent of sunset was a direct reaction to external and internal pressures. Externally, public opinion polls reflect a national mood of disillusionment, distrust and discontent with government. Internally, legislators have become increasingly frustrated by their seeming inability to get a handle on government.

Oversight is one area where the executive and legislative branches have disagreed about decision making power. Sunset has surfaced as a legislative management tool as the Wisconsin Legislative Reference Bureau notes:

> Sunset is designed to help the legislature increase its stature as a coequal branch of government through a reassertion of the generally neglected oversight function.

The essence of sunset is to force evaluation of an agency or statute by establishing a specific date for termination of the program in question. Improvement and modification--not termination--are the chief goals of sunset. A report by the Texas Advisory Commission sums up sunset:

> The acceptance of this concept (sunset) has been aided by a general agreement that unless legislative bodies are forced to act, no systematic review will be directed toward the efficiency and effectiveness with which governmental programs are carried out. The sunset process is, then, an attempt to institutionalize change and to provide a process by which this can be accomplished on a regular systematic basis.

It was hoped that enactment of sunset legislation would provide the legislature with a structure to strengthen oversight. However, the question of measuring the effectiveness of sunset remains an enigma.

This short article describes the sunset experiences of the Colorado and Florida legislatures. The conclusion attempts to reflect the general feeling of other states that have sunset laws.

II. THE COLORADO EXPERIENCE

Colorado became the first state to enact a sunset law (HB 1088 of 1976). The law provides for the evaluation and possible termination of 39 regulatory boards and commissions under the umbrella of Colorado's Department of Regulatory Agencies. Subsequent amendments to the original law provided that all licenses would expire if an agency was terminated (SB 6 of 1977), and required that performance audits be completed a year before termination (SB 34 of 1978).

The State Auditor was assigned the task of conducting the performance audits, based on the criteria established in the sunset law. Audit teams interviewed board members and employees, made on-site visits and mailed questionnaires to licensees and users of the service. The first audits were released in early April of 1977, with specific recommendations for improving operations. In addition to these performance audits, the Department of Regulatory Agencies (DORA) prepared evaluations using interns from the University of Colorado's School of Public Affairs, but subject to approval by the Executive Director of DORA. DORA used these reports to determine if the agencies in question should be recommended for continuation. These reports were also to be used by the Legislature to supplement the State Auditor's reports.

After hearings by standing committees, recommendations to eliminate three agencies were approved in the final hectic days of the 1977 session. The Board of Shorthand Reporters, Board of Professional Sanitarians, and the State Athletic Commission were terminated. Also, five agencies were modified during the session, and final consideration of five other agencies was postponed until the next session. These agencies were eventually modified and reenacted.

The second cycle primarily concentrated on 12 health-related boards and was marked by two procedural changes. First the State Auditor's evaluation reports made several alternative recommendations. Also, bills to reenact agencies could be introduced in either house instead of just the Senate. In addition, DORA would produce its own reports instead of having graduate students prepare them.

Nine agencies were modified and reenacted during the 1978 cycle. The Nursing Board, Practical Nurses Commission and Commission on Women were discontinued. These three agencies are in their one-year windup period. During the 1980 legislative session the Nursing Board and the Practical Nurses Commission were continued by the Legislature. However, legislation recreating the Women's Commission was vetoed by Governor Richard Lamm.

According to Representative Gerald Kopel, one of the state's first sunset proponents, the process generally achieved the goals perceived by the law. In a memo to the Legislature the State Auditor also cited several major legislative accomplishments:

1. Deregulation of commercial vehicles transporting certain goods.
2. The membership of most regulatory boards has been revised to provide public representation.
3. The governing statutes of most regulatory boards have been reorganized and written to clarify powers and duties, provide more consumer protection and eliminate obsolete sections.
4. Organizational changes have centralized within DORA certain support type functions such as accounting, budgeting, investigations and changes in license issue procedures.
5. Licensing requirements have all been examined and in some cases repealed or reversed.

Although it appears as if a majority of the Legislature sees the process as providing sufficient positive benefits, unsuccessful attempts have been made to kill the process but none have succeeded thus far, according to Representative Kopel. Sunset has increased member awareness of legislative oversight, while providing a tool to review specific regulatory entities in depth and, indeed, question the need for regulation at all.

There are, however, problems associated with the sunset process in Colorado. Time is a major concern. Considerable legislative time and effort was allocated for hearings, standing committee meetings and negotiating final agreements. Some legislators still feel that too much time has been spent reviewing relatively obscure agencies. Even with the time allocated, some reviews have required further interim study, thus delaying the whole process. The time requirement may create problems in the future if more extensive and complex programs are subject to sunset review.

The State Auditor estimated that $443,478 was spent to conduct 26 sunset reviews which comes to approximately $17,000 per review, not including the cost to DORA for their reviews. The cost to conduct the next cycle is estimated at $150,000.

The boards terminated thus far have had little impact on the budget. The State Auditor indicates that:

> If the criteria to determine if sunset is cost beneficial is the elimination of regulatory boards with their associated expenditures, compared to the cost of the reviews, then it is definitely not cost beneficial to continue the reviews.

BEST COPY AVAILABLE

Some members of the Legislature question spending this money for benefits that cannot be measured.

Colorado lawmakers and staff also cited as problems the lack of public participation, the length and complexity of the performance audits and DORA reviews, and the perfunctory manner of some hearings.

Despite these concerns, the state's sunset law will not likely be repealed; the goal is to improve and modify agencies, not terminate them. In addition, cost benefit ratios may not be an appropriate measure of effectiveness.

The Legislature's appetite to perform oversight has been enhanced, and a broad base of support exists. The law was expanded in 1979 to include more agencies for sunset review, and the Legislature has attempted to strengthen the internal procedural aspects of the process. With more experience and a strong base of support, it appears as if the Colorado sunset process will improve and continue.

III. THE FLORIDA SUNSET EXPERIENCE

Florida became the second state to enact a sunset law when it passed the Regulatory Reform Act of 1976 (Chapter 76 - 168 Laws of Florida). Subsequent amendments (Chapter 77 - 457 Florida Laws) reduced an overly ambitious termination schedule and required that evaluation work begin two years before the repeal date. In Florida statutes were subject to termination. The required reviews during the first two cycles were divided evenly between the House and Senate Governmental Operations Committees.

Each House reviewed six regulatory statutes during the first cycle. The House Governmental Operations Committee created a subcommittee to evaluate the agencies. It gathered information using questionnaires, field visits and reviewing relevant documents. No formal written evaluation reports were issued; instead, various modification schemes were presented. The full committee recommended terminating three statutes and modifying the remaining three.

The Senate Governmental Operations Committee differed from its House counterpart by developing formal written reports complete with recommendations. The goals were the same but the end products were different. The full committee recommended the termination of two statutes and modification of the remaining four.

Ultimately in the first review cycle the Legislature terminated regulatory statutes relating to shorthand reporters, yacht and shipbrokers, sanitarians and watchmakers. The Legislature reenacted eight statutes with modifications, increasing the control of the State Department of Professional Occupational Regulation (DPOR) over the independent regulatory boards. The modifications also made it mandatory to include lay members on the boards.

Due to the time required in the first cycle the House created a Regulatory Reform Committee to oversee the sunset evaluations. Both houses of the Florida Legislature essentially emulated the methodology utilized during the first cycle. The process appeared to be on course during early March of 1979. Sparked by the sunset reviews of regulatory statutes, however, the respective review committees of each house began questioning the utility of the DPOR. The sunset process was delayed until the DPOR reorganization issue was resolved.

The issue was resolved in early May, but with a June 1 adjournment date the sunset review process was pressed for time. At the last minute the full Legislature reenacted 24 statutes. However, Governor Robert Graham vetoed bills reenacting the Forestry Practice Act and the Electronic Repair Act. Also, the Senate failed to approve a House bill reenacting the Psychological Practice Act, effectively sunsetting this board.

The first two cycles of the Florida sunset process reaped positive benefits. According to Representative George Sheldon sunset forced the Legislature to evaluate what had been done in the past and act by terminating unnecessary agencies and modifying many other boards. Although changing the DPOR was not specified in the sunset law, the process served as a catalyst for its reorganization.

Like Colorado, the quantity of time spent on the process poses a major problem. A staff report issued by the Governmental Operations Committee stated that:

> The amount of time required to conduct a thorough review of a regulatory agency sharply reduces the time which is available for a committee staff to devote to other areas of responsibility.

Another problem related to cost. The original legislation provided no new funding for additional staff placing the review burden upon existing personnel. The Governmental Operations staff estimates that it cost approximately $120,000 to conduct the 1979 evaluations. Legislators and aides agree that the cost of reviews are high while benefits to the public are difficult to measure.

A final major problem concerns the end product of the reviews. Were the formal written reviews done by the Senate more useful than the final recommendations of the House? According to legislative members, the formal written reviews may have provided too much information while the House recommendations provided too little. When the recommendations were exchanged between the houses communication and information problems occurred. This inhibited the final stages of the evaluation process. This problem may be remedied since both houses will conduct all reviews in the future, eliminating some problems associated with final legislative action.

Legislators and staff agree that the results of sunset are mixed. However, the future of sunset in Florida appears stable right now. Bills have been introduced in both houses to increase the time allotted for the review cycle. Also, the evaluation work load will be spread between two committees in the House and among seven in the Senate. The experience gained will also improve the process.

This year major statutes concerning public utilities, banks and trucking deregulation are scheduled for review. These evaluations will require a significant effort and a major time commitment.

IV. CONCLUSION

The Florida and Colorado sunset experiences have demonstrated that success is possible. However, there are few quantitative mechanisms to measure its effectiveness. Various factions in Florida and Colorado disagree about the results of the first two sunset cycles, and, although they are obviously subjective views of the success and/or effectiveness of sunset, they must be considered. The positive aspects appear to outweigh the negative ones in both states; of those regulatory statutes and agencies reviewed and evaluated, all were either modified or improved. And legislators became more aware of legislative oversight.

Many other states have found that it is easier to enact the law than implement it. Legislators and staff members in Alabama, Arizona, Arkansas, Louisiana, South Carolina, Georgia, Utah, South Dakota, Wyoming, New Mexico, Nebraska, Maryland and Rhode Island all report problems in implementation. The major concerns relate to the time and money required to conduct the reviews effectively.

Some states have expressed more positive feelings concerning sunset. Texas, Tennessee, Indiana and Maine are pleased with their sunset laws and the process thus far.

Reports from legislative staff and lawmakers indicate that sunset is alive but not necessarily well in all states. There are many pros and cons surrounding the sunset process. On the positive side sunset:

1. compels the legislature to evaluate and exercise its oversight responsibilities;

2. forces the legislature to take affirmative action to recreate an agency facing termination;

3. institutionalizes the evaluation process;

4. increases the opportunity for agency improvement and modification emphasizing effectiveness and efficiency, not termination; and

5. creates an incentive for agencies to implement corrective administrative changes on their own.

On the negative side:

1. a significant amount of time must be committed by the legislature to conduct the sunset reviews;

2. time spent on sunset detracts from time spent on other legislative responsibilities;

3. the cost to conduct effective reviews is considerable and may not result in a comparable savings in taxpayer monies;

4. currently there is no quantitative measurement to judge the effectiveness of the final results; and

5. some states have linked agency extension bills to approval of unrelated legislation.

Sunset laws require legislatures to invest time, effort and sometimes scarce staff and fiscal resources. A substantial investment in sunset inevitably detracts from other legislative responsibilities; most legislatures have few extra funds and little time to pursue an activity that reaps questionable benefits.

To date, sunset has focused on the review of watchmakers, barbers, cosmetologists and other minor regulatory entities; and the process may not be transferable to, or successful in other broader areas of government.

Legislators and staff think it is unrealistic to believe that a termination deadline can force comprehensive reviews of major agencies concerning education, social services or corrections. These agencies cannot be terminated. Even major regulatory agencies like banking, insurance and public utilities will not likely be terminated. These agencies are very complex and necessary for the good of the state. However, program evaluation may be able to provide effective review and evaluation in these major agencies. Program evaluation may be able to address the larger issues that sunset cannot.

It appears that pure sunset can work in some areas but maybe not in the major areas. The question is of commitment: Does a legislature want to commit scarce time, effort and resources to this relatively limited area of review?

Today, some atrophy has begun to permeate many states' sunset laws. It may have been unrealistic to assume that major agencies would be evaluated under sunset and significant tax dollars saved. Sunset may be best suited to review esoteric entities. It can be effective in this area but the cost is high. Many legislatures cannot afford the time to review these entities. Sunset appears to be losing some of its appeal like budgeting mechanisms such as zero-base budgeting and planned program budgeting systems. However, sunset has increased the awareness of legislators concerning their oversight responsibilities and capabilities. The termination schedule has forged a link between the legislative decision making and budgeting processes and program evaluation.

Sunset has also brought program evaluation into clearer focus for the legislature. Many states are beginning to create legislative program evaluation units to facilitate program evaluation. The integration of program evaluation into the political decision-making process and the budget-making process may be able to address some of the problems sunset cannot. Although program evaluation is still a young art it does have possibilities.

In conclusion, laws and new concepts do not make oversight work; individual legislators do. Only a firm commitment to pursue oversight will reap any significant benefits.

SUNSET LEGISLATION: A SELECTIVE BIBLIOGRAPHY

Foreword

This bibliography is a compilation of materials on the subject of sunset legislation from 1976 to the present. It focuses on state sunset legislation and includes a variety of state government publications. However, this work does not represent a comprehensive collection of state government reports on sunset legislation. For perspective and comparison, the bibliography includes a section on general and Federal materials. Congressional publications are included separately.

Most of the citations are annotated and have been chosen from the computerized bibliographic data base created and maintained by the Library Services Division of the Congressional Research Service. A number of citations were selected from the card catalog and the computerized catalog to the collections of the Library of Congress. The Public Affairs Information Service index was also consulted to assure a broad coverage of the subject area.

Call numbers are provided for citations to items in the collections of the Library of Congress. Those items located in the Law Library are designated "Law" and items found in the Newspaper and Current Periodicals collection are designated "Newsp." All journal articles are provided with the call number of the bound volumes of the journal regardless of whether the issues cited were bound at the time of writing.

The author would like to thank Virginia McMurtry, Analyst in American National Government, Government Division, and Shirley Loo, Specialist in Information Control and Automated Systems and Richard Gigax, Assistant Section Head of the Subject Specialization Section, both of the Library Services Division, for their review of this work and their comments. Special thanks for her invaluable editorial assistance are extended to Susan E. Crosby. The author would also like to thank John White and Lee Burwasser for their assistance in the secretarial production of this bibliography.

Reflecting a general consensus that government should work better and cost less, the concept has the cautious approval of Illinois Gov. James R. Thompson and is already being tried in Colorado. Rosenthal, Alan. Legislative behavior and legislative oversight. Legislative studies quarterly, v. 6, Feb. 1981: 115-131. JF501.L42, v. 6

"This article explores contrasting approaches to the study of oversight by state legislatures. A focus on individual orientations and behavior, which has dominated such study, reveals attempts by legislators to maximize credit, achieve concrete results, and avoid making additional trouble for themselves. It indicates that little oversight is performed. By contrast, a focus on institutional activity--primarily by special commissions and committees and their staffs--indicates that substantially more oversight is performed. The apparent contradication is reconciled by taking into account institutional incentives as they influence the motivations of a minority of members. The major problem is an analytical one, in which an unwarranted 'aggregative leap' is made from the individual on the one hand to the institution on the other."

"Sunset legislation provides for the systematic evaluation of government agencies and programs to determine whether each agency or program can justify its contribution beyond scheduled termination. Several federal sunset acts have been proposed but none has been passed. At the state level, ... [as of 1980] 31 states have passed sunset laws. Key lobbying efforts for sunset laws have been carried out by Common Cause. The literature on sunset legislation consists primarily of government reports and articles in social science and legal periodicals." Cohen, Richard E. Sunset proposals in Congress—sinking below the horizon? National journal, v. 11, Nov. 24, 1979: 1978-1981. JK1.N28, v. 11

"When 'sunset' legislation was introduced in 1976, it entailed the automatic extinction of federal programs every four years unless Congress reviewed them and explicitly reauthorized them. As a symbol of congressional efforts to trim the size of government, sunset gained broad support—until some Members of Congress grew aware of the workload it would impose. Now the House and the Senate are considering weakened versions, both of which would let the authorizing committees decide which programs should be reviewed. Only the Senate bill would provide for the automatic death of programs that Congress did not reauthorize after reviewing them."

——— Will the 96th become the 'oversight Congress'? National journal, v. 11, Jan. 13, 1979: 44-49. JK1.N28, v. 11

"This is the year that congressional oversight may come into its own. For whatever the reason—the 'taxpayers revolt,' the high cost of government, suspicion of government regulators or disenchantment with social programs—Members of Congress are scrambling to review the programs, policies and actions of the executive branch. Whether the glamour wears off or the political rewards eventually appear less lucrative remains to be seen, but for now, the 96th Congress seems ready to adopt the title of the Oversight Congress."

JS39.N3, v. 67

"Zero-Base and Sunset have captured the imaginations of politicians, bureaucrats and the public. The concepts seem to epitomize the attitude toward government--that the increase in the scale of government operations and the number of employees should be cut back. Although the concepts are different, they can be used together as compatible systems."

Havemann, Joel, and Richard E. Cohen. Zero-base budgeting and sunset legislation. National journal, v. 9, Apr. 2, 1977: 514-520. JK1.N28, v. 9

Two articles discuss the combined impact of zero-base budgeting and sunset legislation on Federal agency programs. Some agencies are enthusiastic about the proposed new budgeting program, but others fear drastic cuts in their programs. "A bill that would require automatic and periodic reviews of most federal programs as a way of determining whether they should be allowed to continue is working its way through Congress as a counterpart to the Administration's new zero-base budgeting process. The most controversial provision is one that would apply the same review to much of the tax code."

Jones, Reginald H. Sunset legislation. Tax review, v. 39, Dec. 1978: 51-54. HJ2360.T35, v. 39

"After a brief survey of the recent legislative history of the 'sunset' concept, ... [the author, who is chairman and chief Executive Officer of General Electric Company] argues that sunset for tax legislation would represent bad tax policy and would conflict with a number of important philosophical notions basic to the U.S. economic and political system."

"Raises new insights into increasing efficiency of government agencies. Strategy is based on the frequently overlooked fact that the legislature, with its final authority over appropriations, is the key institution which encourages or discourages true cost consciousness."

League of Women Voters of the United States. Education Fund. Perspectives on sunset. [Washington] 1977. 4 p.

Discusses provisions of S. 2, the proposed Sunset Act, which was introduced in the 95th Congress and discusses other legislative sunset proposals introduced during the current Congress.

Leone, Richard C. The 'sunset proposal': how to ride herd on the budget. Nation, v. 222, May 22, 1976: 625-627. AP2.N2, v. 222

"The essence of the proposal is that nearly all federal programs should expire after four years, unless re-enacted by the Congress after thorough consideration by both the executive and the legislative branches. The bill also establishes a zero-base budgeting system for the federal government, similar to that currently in use in several states."

Licata, Anthony R. Zero-base sunset review. Harvard journal on legislation, v. 14, Apr. 1977: 505-558. Law

Comment examines the concept of zero-base budgeting and the sunset proposal. Contrasts legislation introduced in the 94th and 95th Congresses, and critiques S. 2, which is currently under scrutiny in the 95th Congress. Offers a model Federal Sunset Act, which combines sunset and zero-base budgeting.

In this interview, the director of the Office of Management and Budget discusses the use of zero-base budgeting (ZBB) in the government and private sector. Offers some comparisons between the Federal and state zero-base budgeting process, and discusses zero-base budgeting as a program evaluation tool for the reauthorization process.

Muskie, Edmund S. Sunset: new sunlight on government. Trial magazine, v. 13, Feb. 1977: 47-49. Law

A U.S. Senator discusses the bill he introduced during the 94th Congress, which would "establish a process through which Congress is forced to apply greater scrutiny to the fruits of its legislative work. The bill would accomplish this by terminating every single federal program--with only a handful of exceptions--and every single federal tax expenditure every five years." The legislation would, in essence, "lend discipline and cohesiveness to the way in which the federal government handles the American taxpayers' money."

This article examines congressional efforts in the area of sunset legislation and evaluates the impact of sunset legislation on Federal agencies and programs.

Quitmeyer, John M. Sunset legislation: spotlighting bureaucracy. University of Michigan journal of law reform, v. 11, winter 1978: 269-289. K16.R68, v. 11

Comment suggests that sunset legislation is an "appropriate response" to public concerns about the size of government and expanse of its power. Describes "the deficiencies of current methods by which the legislature reviews activities of the executive branch ... and examines the provisions of sunset legislation, emphasizing the role of evaluation criteria, and suggests that elaborate quantitative techniques are not crucial for adequate evaluation. Evaluation criteria currently incorporated in various sunset statutes can best be classified according to those which apply to entity functioning and those which evaluate an entity's purpose."

Randall, Ron. What's wrong with sunset laws; 'zero-base' budgeting. Nation, v. 224, Mar. 19, 1977: 331-334. AP2.N2, v. 224

Contends that scheduled reviews and assessments of Federal agencies and their programs as provided by sunset legislation would be an impossible task since the "existing institutions cannot perform evaluations of all government programs at this rigorous level" and that a "bias against social welfare programs would be created."

Shimberg, Benjamin. The sunset approach: the key to regulatory reform? State government, v. 49, summer 1976: 140-147. JK2403.S7, v. 49

This article discusses the sunset proposal for the termination of agencies which are no longer useful or effective. The author contends that the appeal of sunset legislation may lead to disillusionment when it does not provide instant regulatory reform. "The real challenge lies in what comes after the Sunset review--making sure that needed changes are actually carried out and installing procedures to prevent new abuses in the future."

Silberman, Laurence H. If not the best, at least not the worst. Commonsense, v. 1, summer 1978: 18-26.
Asserts that "a method of identifying the least effective government programs could encourage citizens to view all programs as competing against each other for limited resources, making the truly worst programs candidates for termination."

"PAD-78-73, June 8, 1978"
"This report discusses ways of strengthening the oversight process, particularly the nature of congressional review of broad policy subjects. GAO suggests (1) a requirement that over an 8-year cycle programs and activities be reviewed in policy subject areas designated in biennial concurrent resolutions on oversight, (2) a presumption that any program which is not reviewed during the 8-year cycle should be considered for termination, and (3) a mechanism by which individual programs can be designated for reauthorization which are not now subject to the reauthorization process."

Waterfield, Maynard H. Rethinking the sunset concept. Tax review, v. 40, Sept. 1979: 29-32. HJ2360.T35, v. 40

"The important question to be asked about the proposed Sunset Act of 1979, asserts Tax Foundation's Director of Federal Affairs, Maynard H. Waterfield, is what sunset legislation would or would not accomplish if enacted. Reviewing the provisions of the bill and its predecessors, Mr. Waterfield enumerates the oversight powers which Congress already possesses. 'It would appear,' he concludes, 'that the one new thing which sunset provides is the ten-year, five-Congress review-reauthorization schedule.' Mr. Waterfield concludes by asking how effective any sunset law can be, since Congress has failed to use the powers it already has."

(2) The extent to which statutory changes have been recommended which would benefit the public in general as opposed to benefitting the agency;

(b) Said "zero-based review and evaluation" shall include, but not be limited to, the following factors:

(3) An examination of the extent to which the objectives of the agency have been achieved in comparison with the objectives as initially set forth in the enabling legislation and an analysis of any significant variance between projected and actual performance;

(4) A specification, to the extent feasible, in quantitative terms of the objectives of said agency for the next four years; and

Editor's note.—Section 1, ch. 149, SLA 1977, provides: "The legislature finds that the substantial increase in the number of state agencies, boards and commissions, and the proliferation of rules and regulations which each has adopted have contributed to a public disenchantment with the operation of state government, and that there is need for an effective and regular system of scrutiny of the programs and activities of all agencies, boards and commissions. The legislature further finds that the establishment of a system for periodic review by the public and the executive and legislative branches of certain state agencies, boards and commissions will help the governor and the legislature to determine the need for the continued existence of each of the agencies, boards and commissions."

ARTICLE 1. GENERAL PROVISIONS

Article 1, consisting of §§ 41-2351 to 41-2354, contains the provisions of Chapter 18, Article 1, §§ 41-2251 to 41-2254, as added by Laws 1978, Ch. 210, § 1, effective September 3, 1978, and as transferred for placement as this article and renumbered.

1978 Reviser's Note:

Pursuant to authority of section 41-1304.02, material added as chapter 18 of title 41 of Arizona Revised Statutes by Laws 1978, chapter 210, sec. 1 and consisting of sections 41-2251 through 41-2254 and sections 41-2261 through 41-2265 was placed as chapter 20, which new section numbers 41-2351 through 41-2354 and 41-2361 through 41-2374.

§ 41-2351. Purpose

A. The Arizona legislature finds that state government actions have caused an increase in the number of agencies, departments, boards, commissions, institutions and programs of this state and that the process has developed without sufficient legislative oversight. Furthermore, the legislature finds that state government should be continually reviewed and revised in response to the developing needs of the public. In addition, the legislature finds that programs are perpetuated without periodic and systematic reappraisal of their achievements as compared to their original objectives. The legislature concludes that by establishing a system for the termination, study, review, continuation or reestablishment of such agencies, it will be in a better position to evaluate the need for the continued existence of current and future agencies, departments, boards, commissions, institutions and programs of this state.

B. It is the intention of the legislature:

1. To establish an orderly schedule for the termination of existing state agencies, departments, boards, commissions, institutions and programs and to make provisions for legislative review to enable the legislature to have the benefit of recommendations for the continuation of those state agencies, departments, boards, commissions, institutions and programs which are deemed to be essential for the necessary and efficient operation of government.

2. That the sunset review of an existing state agency, department, program, board or advisory council or committee means the sunset review of the powers and duties exercised by such state agency, department, program, board or advisory council or committee.

3. That any amendment of the enabling authority for an agency, department, program, board or advisory council or committee subject to sunset review be in accordance with this chapter.

Added as § 41-2251 by Laws 1978, Ch. 210, §1. Renumbered as § 41-2351. Amended by Laws 1979, Ch. 132, § 1.

1978 Reviser's Note:

The above section was added by Laws 1978, Ch. 210, sec. 1 as section 41-2251 and was renumbered as section 41-2351 pursuant to authority of section 41-1304.02.

"6. Section 41-2374, Arizona Revised Statutes, providing for terminaton of statutes relating to certain agencies on January 1, 1991, was amended by Laws 1980, fourth special session, chapter 1, § 26 and by Laws 1980, chapter 232, § 16. The fourth special session version incorporated all new text added by chapter 232, § 16, and in addition added new paragraph 19 to the section. To reconcile the multiple action of the two sessions, this enactment selects the later enactment as the most recent expression of legislative intent for retention and repeals § 41-2374, Arizona Revised Statutes, as amended by Laws 1980, chapter 232, § 16."

However, the substance of this amendment was not reflected in the title of the act as required by Constitution of Arizona Article IV, part 2, § 13. In order to accomplish the legislative intent, in this enactment Laws 1980, fourth special session, chapter 1, § 26, the previous valid version of §41-2374, Arizona Revised Statutes, is amended to incorporate the amendments made by Laws 1981, chapter 225, § 14 and Laws 1981, chapter 225, § 14 is repealed."

5-1201. Intent.—The General Assembly hereby determines that State Government actions have produced a substantial increase in the number of agencies, departments, boards, commissions, institutions, and programs of this State, growth of pre-existing programs, and the proliferation of rules and regulations, and that this whole process developed without sufficient legislative oversight, regulatory accountability, or a system of checks and balances. The General Assembly further determines that by establishing a system for the termination, study, review, continuation, or re-establishment of such agencies, it will be in a better position to evaluate the need for the continued existence of existing and future agencies, departments, boards, commissions, institutions, and programs of State Government.

It is further the intention of the General Assembly to establish an orderly schedule for the termination of all existing State agencies, during a six (6) year period, but to make provision for legislative review by the Joint Interim Committees of the Arkansas General Assembly, including the holding of public hearings, to enable the General Assembly to have the benefit of recommendations for the continuation of those State agencies which are deemed to be essential for the necessary and efficient operation of Government, prior to the termination thereof. [Acts 1977, No. 100, § 1, p. 71.]

[Acts 1979, No. 1021, § 1, p. 2207.]

Compiler's Notes. This section (Acts 1979, No. 1021, § 1, p. 2207) which provided the legislative purpose for the continuation of certain agencies until June 30, 1981 has been rendered obsolete by the repeal of Acts 1979, No. 1021, § 2 which listed the agencies affected by the termination.

5-1202.6 Purpose.—In the passage of this Act [§§ 5-1203.6—5-1203.8], the General Assembly is cognizant of the intent of Section 4 [§ 5-1204] of Act 100 of 1977, Section 3 [§ 5-1203.3] of Act 683 of 1979 and Section 2 [repealed] of Act 1021 of 1979, which provided for the termination of a number of state agencies on June 30, 1981 unless studies of said state agencies by joint interim committees of the General Assembly, who were assigned in said Acts to make "Sunset reviews" of said agencies, determine that the continuation of certain of said state agencies is in the public interest. During the interim between the adoption of Act 100 of 1977 [§§ 5-1201—5-1212], Act 683 of 1979 [§§ 5-1203.1—5-1203.3] and Act 1021 of 1979 [§ 5-1203.4], and the convening of the 1981 Regular Session of the General Assembly, the respective joint interim committees of the General Assembly have made studies and review of the purposes, activities, justification, and needs for each of the state agencies enumerated in Section 4 of Act 100 of 1977, Section 3 of Act 683 of 1979 and Section 2 of Act 1021, of 1979, and have recommended the continuation of a number of said state agencies. 5-1206. Method of re-establishment.—Any State agency scheduled for termination under the provisions of this Act [§§ 5-1201—5-1212] may be continued or re-established by the General Assembly by the adoption of a law providing for the re-establishment thereof. [Acts 1977, No. 100, § 6, p. 71.]

5-1207. Performance audit prior to termination.—The Division of Legislative Audit shall cooperate with the various Joint Interim Committees in making performance audits and/or providing summary audit information that may be requested by the several Joint Interim Committees in connection with their study and review of the various State agencies enumerated in Sections 3 through 5 [§§ 5-1203—5-1205] of this Act. Each Joint Interim Committee requesting performance audits shall submit its request to the Legislative Auditor, and if the Legislative Auditor determines that there are more requests for performance audits than can be undertaken and completed by the available auditing staff, he shall submit such request to the Legislative Joint Auditing Committee, and said Committee shall instruct the Legislative Auditor with respect to the performance audits to be undertaken and the priorities thereof. Upon completion of performance audits and/or summary audit reports requested by the respective Joint Interim Committees, the Division of Legislative Audit shall present copies thereof to the appropriate Joint Interim Committee which has the State agency under review, and shall make itself available to such Committee for the purpose of reviewing the audit reports and/or information.

If the Joint Interim Committees to which State agencies are referred for review under the provisions of this Act [§§ 5-1201—5-1212] shall specifically request in writing a report from the Governor containing his recommendations for continuation, abolition, or modification of each of the State agencies and the divisions and programs thereof, which are under consideration by the Joint Interim Committees, failure by the Governor to file such a report with the Committees shall not prohibit the Committees from proceeding with their duties under this Act. [Acts 1977, No. 100, § 7, p. 71; 1977 (Ex. Sess.), No. 12, § 1, p. 2479.]

Amendments. The 1977 amendment, by No. 12 (Ex. Sess.), § 1 substituted the present first paragraph for one which read, "The Division of Legislative Audit shall cause to be conducted a performance audit for each State agency and the respective divisions and programs thereof, which are scheduled for termination under this Act. The performance audit shall be completed at least three (3) months prior to the time established by this Act for the termination of the State agency. In conducting the audit, the Division of Legislative Audit shall take into consideration, but shall not be limited to, the factors listed in Section 8 of this Act. Upon completion of the audit report, the Division of Legislative Audit shall present copies thereof to the members of the appropriate Joint Interim Committee which has the State agency under review, and shall make itself available to such Committee for the purpose of reviewing the audit report."

Emergency. Section 2 of Acts 1977 (Ex. Sess.), No. 12 read: "It is hereby found and determined that Act 100 of 1977 mandated the Division of Legislative Audit to make performance audits of the various State agencies to be reviewed by the several Joint Interim Committees under the provisions of said Act 100; that approximately one hundred twenty (120) State agencies are to be reviewed by the Joint Interim Committees during the 1977-78 biennium, and it will be impossible for the staff of the Division of Legislative Audit to make performance audits of each of these agencies; and that the immediate passage of this Act is necessary to amend Section 7 of Act 100 of 1977 to permit the Division of Legislative Audit to make performance audits when requested by the respective Joint Interim Committees, and to furnish other audit information upon request, yet relieving the Division of Legislative Audit of the responsibility of making performance audits on all such agencies; and that the immediate passage of this Act is necessary to accomplish such purpose and to expedite the work of the Joint Interim Committees during the current biennium. Therefore, an emergency is hereby declared to exist and this Act, being necessary for the immediate preservation of the public peace, health, and safety, shall be in full force and effect from and after its passage and approval." Approved August 15, 1977.

5-1208. Public hearings prior to termination—Determination by joint interim committee.—Prior to termination, continuation, or re-establishment of any State agency, the Joint Interim Committee which is assigned the responsibility for reviewing such State agency and the various divisions and programs thereof, shall hold one or more public hearings and receive testimony from the public and the Executive Director or administrative head of the State Agency, including such division directors or other employees thereof as the Committee may deem appropriate, and in such a hearing the State agency shall have the burden of demonstrating a public need for its continued existence and shall cooperate with the Committee in determining such changes, modifications, or revisions in the role, duties, and purposes of the agency which might promote the efficiency of the administration or operation of the agency, if continued.

In such hearings, the determination made by the respective Joint Interim Committee as to whether a State agency assigned to it for review has demonstrated a public need for its continued existence, shall take into consideration the following factors, among others:

(a) the extent to which the State agency and the respective divisions, programs, and services thereof have served the public as intended by law;

(b) the extent to which the State agency has complied with the laws and statutes defining its powers and duties;

(c) the extent to which the State agency's operations have been impeded or enhanced by existing statutes, procedures, and practices of the State of Arkansas, or of other State agencies, and any other circumstances, including budgetary, resources, and personnel matters, which may have adversely affected the agency's operation;

(d) the extent to which the State agency has complied with the Administrative Procedures Act [§§ 5-701—5-715] in the promulgation of rules and regulations and the giving of notice and holding of formal hearings on all matters covered by the State Administrative Procedures Act [§§ 5-701—5-715];

(e) the extend to which public representation is provided by law on the various boards and commissions which regulate the various occupational and professional licensing boards and other regulatory agencies, and the extent to which public input is utilized;

(f) the extent to which the State agencies have encouraged participation by the public in making its rules and decisions, as opposed to participation solely by persons it regulates; and

(g) the extent and efficiency with which public complaints filed with a State agency have been processed by the State agency and its personnel, and by other applicable departments of State government, to determine whether the agency is satisfactorily rendering service to the public with respect to formal and informal complaints. [Acts 1977, No. 100, § 8, p. 71.]

5-1209. Administration of laws governing agencies.—(a) In the event an agency shall cease to exist pursuant to this Act [§§ 5-1201—5-1212], the laws governing its powers, duties, and functions are not repealed, but shall be administered by some other State agency, if so designated by the General Assembly, unless the General Assembly specifically repealed the laws establishing such powers, duties, and functions.

(b) In the event the General Assembly shall enact laws continuing the existence of an agency which, under the provisions of this Act, would have terminated without such extension, said agency shall continue to perform the functions, powers, and duties imposed upon such agency by the laws of this State, unless said laws have been specifically amended or repealed or the powers, duties, and functions were transferred to another State agency. [Acts 1977, No. 100, § 9, p. 71.]

5-1210. Claims against agencies; not diminished.—This Act [§§ 5-1201—5-1212] shall not cause the dismissal of claims of the public or individuals against any State agency, or any claim or right of a State agency terminated pursuant to this Act which is subject to litigation. [Acts 1977, No. 100, § 10, p. 71.]

5-1211. Recommendations of joint interim committees—Consolidated report.—Each of the respective Joint Interim Committees of the General Assembly assigned the responsibility for reviewing State agencies which are scheduled to terminate on or before June 30 of the year in which the regular session of the General Assembly convenes, shall conclude their studies and file recommendations with the Joint Interim Committee on State Agencies and Governmental Affairs, on or before September 1 of the year preceding the convening of the next regular session of the General Assembly, containing the recommendations of the Committee with respect to those State agencies which, in the opinion of the Committee should be continued. Such recommendations shall be one of the following: (1) that the State agency be continued; (2) that the State agency be continued, but that its duties be revised or it be consolidated with some other agency; or (3) that the State agency be terminated by law. Provided, that if the Committee does not make a recommendation with respect to a State agency, such action shall be construed as a recommendation that the State agency terminate. In the event the Joint Interim Committee shall recommend that the State agency be continued, but that its duties be revised or that it be consolidated with some other State agency, the report of the Committee shall specifically outline recommendations on consolidation recommended by the Committee.

Upon receipt of the reports of the respective Joint Interim Committees, the Joint Interim Committee on State Agencies and Governmental Affairs shall consolidate all such reports and shall review the same and hold additional hearings, if the Joint Interim Committee on State Agencies and Governmental Affairs determines the same is necessary, to enable said Committee to file a consolidated report with the next regular session of the General Assembly outlining the findings and recommendations of the respective Joint Interim Committees, including such additional recommendations that the Joint Interim Committee on State Agencies and Governmental Affairs shall deem appropriate. The consolidated report of the Joint Interim Committee on State Agencies and Governmental Affairs shall be filed with the Speaker of the House of Representatives, the President Pro Tempore of the Senate, and each member of the House of Representatives and Senate, the Governor, and the Secretary of State. [Acts 1977, No. 100, § 11, p. 71.]

5-1212. Assistance of bureau of legislative research.—The Bureau of Legislative Research of the Arkansas Legislative Council shall provide staff, secretarial, and technical assistance to the Joint Interim Committees in making the studies and reviews of the respective State agencies scheduled for termination under the provisions of this Act [§§ 5-1201—5-1212]. GENERAL ASSEMBLY REVIEW OF REGULATORY AGENCIES FOR TERMINATION, CONTINUATION, OR RE-ESTABLISHMENT

24-34-104. General assembly review of regulatory agencies for termination, continuation, or reestablishment. The general assembly finds that state government actions have produced a substantial increase in numbers of agencies, growth of programs, and proliferation of rules and regulations and that the whole process developed without sufficient legislative oversight, regulatary accountability, or a system of checks and balances. (IX) The extent to which changes are necessary in the enabling laws of the agency to adequately comply with the factors listed in the paragraph (b).

(X) The extent to which the rules and regulations of the agency conform to section 24-4-103 (8) (a), relating to the scope of the agency's authority to adopt rules and regulations. The committee on legal services and the staff of the legislative drafting office shall assist the appropriate committee of reference in making any determination pursuant to this subparagraph (X). The extension of the existence of an agency shall not constitute legislative approval of its rules nor be admissible in any court as evidence of legislative intent.

(9) If no action has been taken to extend the life of an agency scheduled to be terminated on July 1 of an even-numbered year because the subject was not designated in writing by the governor during the first ten days of the legislative session, pursuant to section 7 of article V of the state constitution, the agency shall not be terminated until July 1 of the next subsequent odd-numbered year, prior to which time the general assembly may reconsider the termination, continuation, or reestablishment of such agency.

(10) No more than one such division, board, or agency shall be continued or reestablished in any bill for an act, and such division, board, or agency shall be mentioned in the bill's title.

(11) This section shall not cause the dismissal of any claim or right of a person through or against any such agency or any claim or right of an agency which has ceased its activities pursuant to this section which is or may be subject to litigation. Any person may pursue said claims or rights through or against the department of regulatory agencies, and said claims and rights of an agency which has ceased its activities shall be assumed by the department of regulatory agencies. Nothing in this section shall interfere with the general assembly otherwise considering legislation on any division, board, agency, or similar body existing within the department of regulatory agencies.

(12) When an agency is terminated pursuant to the provisions of this section and the general assembly reestablishes the agency during its wind-up period with substantially the same powers, duties, and functions, the agency shall be deemed to have been continued.

24-34-105. Fee adjustments—division of registrations cash fund—created. (1) This section shall apply to all activities of the boards and commissions in the division of registrations in the department of regulatory agencies.

(2)(a) Each board and commission in the division of registrations shall propose, as part of its annual budget request, an adjustment in the amount of each fee which such board or commission is authorized by law to collect. The budget request and the adjusted fees for each board or commission shall reflect direct and indirect costs.

(b) Based upon the appropriation made and subject to the approval of the executive director of the department of regulatory agencies, each board or commission shall adjust its fees so that the revenue generated from said fees approximates its direct and indirect costs. Such fees shall remain in effect for the fiscal year for which the budget request applies. All fees collected by each board and commission shall be transmitted to the state treasurer, who shall credit the same to the division of registrations cash fund, which fund is hereby created. All moneys credited to the division of registrations cash fund shall be used as provided in this section and shall not be deposited in or transferred to the general fund of this state or any other fund.

(c) Beginning July 1, 1979, and each July 1 thereafter, whenever moneys appropriated to a board or commission for its activities for the prior fiscal year are unexpended, said moneys shall be made a part of the appropriation to such board or commission for the next fiscal year, and such amount shall not be raised from fees collected by such board or commission. If a supplemental appropriation is made to a board or commission for its activities, the fees of such board or commission, when adjusted for the fiscal year next following that in which the supplemental appropriation was made, shall be adjusted by an additional amount which is sufficient to compensate for such supplemental appropriation. Funds appropriated to a board or commission in the annual long appropriation bill shall be designated as cash funds and shall not exceed the amount anticipated to be raised from fees collected by such board or commission.

(b) Whether the public could be adequately protected by another statute, entity or program, or by a less restrictive method of regulation;

(c) Whether the governmental entity or program produces any direct or indirect increase in the cost of goods or services, and if it does, whether the public benefits attributable to the entity or program outweigh the public burden of the increase in cost, and

During the one year period, termination shall not reduce the powers or authority of the entity or program. Upon the expiration of the one year period, the entity or program shall cease all activities; all regulations promulgated by the entity or pursuant to the program shall cease to exist, and all unexpended balances of appropriations or other funds shall revert to the fund from which they were appropriated, or if that fund is abolished, to the general fund.

(1977, P.A. 77-614, § 580, eff. Jan. 1, 1979.)

Any such reenactment may provide for the consolidation of governmental entities or programs or for the transfer of governmental functions from one entity or program to another.

§ 10201. Declaration of policy.

(a) It is essential to the maintenance of a healthy state economy, and a government that has the confidence of its citizens, that the State establish a system of periodic legislative review of its commissions, boards and other agencies. This review of agency performance and activities is consistent with other activities and goals of the General Assembly. The primary purpose of this review is to determine whether or not there is a genuine public need for the agency under review; and, if so, to determine whether or not the agency is correctly performing to meet that need.

(b) It is the purpose of this chapter to provide an action-forcing mechanism designed to increase the accountability of various commissions, boards and agencies through increased legislative scrutiny of programs and agencies. It is the intent of the General Assembly to establish a timetable for the initial review of certain commissions, boards and other agencies, and ultimately to review all commissions, boards and agencies established by or receiving financial assistance from the State. The action-forcing mechanism is to terminate the commissions, boards and agencies under review on certain dates, unless affirmatively reestablished by law.

(c) It is not the purpose of this chapter to terminate agencies which are sufficiently meeting a recognized state need, and which are accountable to and responsive to the public interests. Rather, it is the purpose of this chapter to utilize the review mechanism to strengthen and support such agencies. (62 Del. Laws, c. 301, § 3.)

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

(1) "Agency" shall mean any regulatory, administrative, advisory, executive or legislative body of this State including, but not limited to, any board, bureau, commission, department, committee, council, association, authority or any other entity established by an act of the General Assembly of this State which:

a. Is given authority in the Delaware Code to regulate any business, occupation or profession;

b. Is supported in whole or in part by public funds;

c. Expends or disburses public funds; or

d. Is specifically charged by a public body to advise or make recommendations.

(2) "Committee" or "Sunset Committee" shall mean the legislative committee established by this chapter.

(3) "Performance evaluation" shall mean an evaluation of how well an agency has performed, and is performing its functions; and how well the agency is serving, and has served the public needs. (62 Del. Laws, c. 301, § 3.)

§ 10203. Delaware Sunset Committee—Composition; term of office; Chairman; appointment; quorum; reimbursement; meetings.

(a) The Delaware Sunset Committee shall be composed of 5 members of the Senate, appointed by the President Pro Tempore; and 5 members of the House of Representatives, appointed by the Speaker of the House. Not more than 3 members of the Senate appointees, nor 3 members of the House appointees, shall be of the same political party.

(b) Except as otherwise provided in this chapter, each member shall serve a term of 4 calendar years. The terms of the members shall be staggered in such manner as to insure that the terms of not less than 2 nor more than 3 members of either House shall expire at the same time.

(c) No member shall serve more than 2 terms. The term of a person not reelected shall automatically be concluded on the day after the time for contesting election results has passed. A member appointed to fill a vacancy shall not complete the former term, but shall begin an entirely new term.

(d) Subject to this subsection, the members of the Committee shall elect a Chairman every 2 years from among their members. The chairmanship shall alternate between the Senate and the House of Representatives; provided, however, that when the Chairman of the Joint Finance Committee and the Chairman of Legislative Council are both from the same House, the Chairman of this Committee shall be a member of the other House.

(e) In each General Assembly, all new members of the Committee shall be appointed within the month of January, or within 1 week of organization of each respective House, whichever is later. A quorum shall consist of at least 5 Committee members.

(f) Each member of the Committee is entitled to reimbursement from the appropriate funds of that member's House for the expenses he actually and necessarily incurs in performing the duties of the Committee. Each request for reimbursement must be approved by the Chairman of the Committee.

(g) No person who is a member of the Joint Finance Committee or Legislative Council of Delaware shall serve on the Sunset Committee; provided however, this subsection shall not apply when the minority party in either House has less than 7 members.

(h) Athough all meetings of the Committee shall be open to the public, only members of the Committee and others designated by the Chairman shall be permitted to speak and otherwise participate (62 Del. Laws, c. 301, § 3; 63 Del. Laws, c. 44, § 1.)

Effect of amendment.—63 Del. Laws, c. 44, effective June 23, 1981, substituted "serve more than 2 terms" for "succeed himself on the Committee" in the first sentence of subsection (c).

§ 10204. Same—Staff; appropriations.

The personnel of the Legislative Council of Delaware and the Office of Controller General shall serve as the permanent staff of the Committee. The Committee may, by majority vote, provide for such other assistance, equipment or expenditure as are within the limits of its budget. The General Assembly shall appropriate such funds as it deems are required by the Committee. (62 Del. Laws, c. 301, § 3.)

§ 10205. Same—Rules and regulations.

The Committee shall adopt Committee rules and regulations necessary to carry out this chapter. Such rules and regulations shall be permanent, although succeeding Sunset Committees may alter and amend any and all such rules and regulations. (62 Del. Laws, c. 301, § 3.)

§ 10206. Same—Subpoena powers.

(a) The Committee may issue process to witnesses at any place in this State and compel their attendance as well as the production of books, records, papers and other objects that may be necessary or proper for the purposes of the Committee's proceedings. The Committee may issue attachments when necessary to obtain compliance with subpoenas or other process, which may be addressed to and served by any peace officer in this State. The Chairman of the Committee shall issue, in the name of the Committee, the subpoenas that the majority of the Committee may direct.

(b) In the event the Chairman is absent, the designee of the Chairman is authorized to issue subpoenas, or any other lawful process, in the same manner as is the Chairman. All testimony taken under subpoena shall be reduced to writing, and must be given under oath subject to the penalties of perjury. (62 Del. Laws, c. 301, § 3.)

§ 10207. Information to be forwarded in annual report.

(a) Each agency, as a part of the requirements set forth in § 6508 of this title, or as is required by the annual Budget Appropriation

Act from time to time, shall forward the following information in its annual report:

(1) A chart or diagram showing the greater department, division or agency of which it is a part; as well as any other commissions, boards or agencies over which it has jurisdiction;

(2) Its goals and objectives and the statutory authority for same, if any;

(3) All programs in being at any time for the period of 1 year, up to the date of the annual report;

(4) The total value of state funds and/or materials utilized by the agency for each of the last 5 fiscal years;

(5) A listing of all Delaware Code provisions from which the agency derives its rights, duties and functions.

(b) Each agency being reviewed in accordance with this chapter shall update the information required by this section, and shall include such current information in its agency report pursuant to § 10208 of this title. (62 Del. Laws, c. 301, § 3.)

§ 10208. Agency report.

Each year on or before January 15, each agency under review shall provide the Committee with:

(1) Information specified in § 10207 of this title;

(2) If subject to zero-based budgeting requirements, the last 5 budget reports relating to all program priorities, activities and accomplishments;

(3) A statement setting forth the performance or achievement of the agency as determined by the criteria for review set forth in § 10211 of this title. Such statement shall not address itself to any other subjects other than the criteria for review;

(4) Any information requested at an earlier date by the Committee, if such information is available. Any other law or statute to the contrary notwithstanding, each agency under review shall, upon request, forward to the Committee, or permit a Committee member or staff member to examine and duplicate, any record, document or file over which the agency has any custody or jurisdiction. (62 Del. Laws, c. 301, § 3.)

§ 1.209. Committee responsibilities and duties.

The Committee may give 2 weeks' notice to an agency under review of dates scheduled for Committee meetings, public hearings, etc., but lack of such formal notice shall in no way affect the lawfulness of the Committee's activities or decisions. On or before February 7 prior to that year in which the agency is to be terminated, the Committee shall:

(1) Conduct a thorough review of all information furnished in accordance with § 10208 of this title by each agency under review;

(2) Obtain, verify and review any reports, audits or actions taken by other state agencies concerning the agency under review;

(3) Conduct a performance evaluation of the agency based, at least in part, on the following criteria:

a. If a licensing agency, the extent to which the agency has permitted qualified applicants to serve;

b. The extent to which the agency has operated in the public interests;

c. The extent to which the agency has recommended statutory changes, and whether such changes directly benefit the public; or whether such changes primarily benefit the agency or other entities, and are of only indirect benefit to the public;

(4) Prepare a preliminary written report to be utilized in public hearings, including any preliminary evaluations or recommendations arising from the pre-legislative review under §§ 10207 and 10208 of this title. This report shall be a public record. (62 Del. Laws, c. 301, § 3.)

§ 10210. Public hearings.

(a) Between February 1 and March 7 of each year, public hearings shall be regularly and uniformly convened by the Committee on a continuous basis, as determined by the Chairman. To encourage participation by the general public, such hearings shall be held occasionally in the early evening hours. The Committee may, on such basis as the Chairman shall determine, begin public hearings prior to February 1; provided, however, that no hearings shall be held prior to February 1 if the pre-legislative review process set forth in §§ 10207 through 10209 of this title is incomplete.

(b) The highest administrative officer of the agency under review shall be present at each public hearing to answer any questions from members of the Committee, or members of the general public.

(c) At public hearings held in accordance with this chapter members of the general public, representatives of the agency under review and any witnesses on behalf of either the agency or the public shall be heard, and their evidence received. No proffered testimony or written statements by members of the general public shall be unreasonably refused, and such materials as are offered to the Committee shall be retained and considered by the Committee in making its evaluation. Statements and/or written materials offered by the agency or by witnesses on behalf of the agency (including officers and other having a direct interest in the continued existence of the agency) shall be accepted, but such material shall not be deemed to have been offered by "members of the general public" for purposes of this section. (62 Del. Laws, c. 301, § 3.)

§ 10211. Criteria for review.

The genuine public need for the agency, and whether or not the agency is corectly performing to meet that need, shall not be assumed; the agency shall have the burden of showing, through the criteria for review, that there is such a need and that the agency is meeting that need. The criteria are:

(1) The purpose of the act establishing the agency, and the manner of operation of the agency designed to achieve such purpose;

(2) Whether or not it can be independently established, apart from information supplied by the agency or by persons having a direct interest in the continued existence of the agency, that the absence of the agency or its enabling legislation would be detrimental to the public health, safety or welfare; and wheth-

er or not there is a possibility that such absence would be beneficial to the public health, safety or welfare;

(3) An assessment of less restrictive or other alternative methods of achieving the stated objectives of the act establishing the agency, and if such other methods would provide as much protection to the public;

(4) Whether the statute establishes a clear mandate to the agency, and whether the agency has complied with such mandate, if any, in the best interests of the general public;

(5) Whether other programs, activities or agencies of the state government have the same or similar objectives; and, if so, a comparison of the costs and effectiveness of such agencies, programs or activities; and identification of any duplication with those of the agency under review;

(6) Whether, in the past 3 years the agency has recommended to the General Assembly only those statutory changes of primary benefit to the public; or if such changes were primarily of benefit to the agency or to the occupation, business or institution which it serves or regulates;

(7) The efficiency with which the agency meets its statutory objectives;

(8) Whether applications and formal public complaints filed with the agency have been processed effectively, and fairly;

(9) Whether the agency has permitted only qualified applicants for licenses to serve the public; and has not unduly restricted access to any person wishing to engage in a regulated business, occupation or profession;

(10) The extent to which the agency has encouraged participation by the public in making its rules and decisions, as opposed to participation solely by those it regulates; and the extent to which the public participation has resulted in rules compatible with the objectives of the agency;

(11) Whether or not the agency has operated in an open and accountable manner, with public access to records and meetings, and whether there are safeguards against possible conflicts of interests;

(12) Whether "ethical conduct" provisions or rules of an agency, if any, are in fact limited to ethical or moral conduct; or if such provisions contain primarily commercial prohibitions and restrictions relating to profits, advertising, etc.;

(13) The extent to which the agency has been complying with Chapter 58A of this title; Chapter 101 of this title; §§ 6506, 6512 and 6519 of this title; Chapter 100 of this title; and § 8, article XV of the State Constitution or with the requirements to any statute which is a direct successor to those listed in this subdivision; and

(14) Any claimed impact in terms of federal intervention or loss of federal funds if the agency is terminated, which claim shall be fully substantiated. (62 Del. Laws, c. 301, § 3.)

§ 10212. Sunset report.

(a) On or before April 15 of the calendar year in which an agency under review is automatically terminated in accordance with this chapter, the Committee shall present its final report to the General

Assembly and to the Governor. The final report shall contain a complete description of the agency and its objectives, including all sub-agencies or programs within the agency; a review of all material obtained pursuant to §§ 10207 through 10211 of this title; a determination of whether or not there is genuine public need for the agency, and whether or not the agency is appropriately meeting that need; recommendations of the Committee; and such further matters or information as the Committee may wish to include.

(b) The final report shall contain the sunset review schedule of those agencies recommended for review during the 4th year after the report. If the report does not contain a recommended schedule, the sunset review schedule for said 4th year shall be comprised of at least 9 agencies including those agencies automatically scheduled for review, those added by the General Assembly and such additional agencies as are needed to complete the schedule. The additional agencies shall be taken in order of their appearance in the Delaware Code, beginning with the 1st section of Title 1. In any year where the number of agencies placed on the up-coming 4th year schedule and those added by act of the General Assembly are insufficient to complete a sunset review schedule, the schedule shall be completed by adding, starting with Title 1, and in the order in which they appear in the Delaware Code, those agencies which have not been reviewed. (62 Del. Laws, c. 301, § 3.)

§ 10213. Committee recommendations.

In its final report concerning a state agency, the Committee may recommend any or all of the following:

(1) Recommend the continuance of an agency, as is; termination of any agency; the termination of any program within the agency; the consolidation, merger or transfer of agencies or of functions from 1 agency to another; or the termination of the agency unless certain conditions are met or modifications made, by legislation or otherwise, within a specified period of time;

(2) Recommend budget appropriation limits for a state agency; and

(3) Recommend, in general or specific terms, such legislation it deems necessary to carry out its decision as to whether or not an agency should be continued or terminated. (62 Del. Laws, c. 301, § 3.)

§ 10214. Review schedules.

(a) When an agency has successfully completed a review under this chapter or has been reestablished, it shall not be subject to review again until the 6th year following its last review, at the earliest, depending upon the decision of the Committee. The termination date in a review schedule shall cease to apply to an agency recommended for continuance.

(b) Every agency created by law enacted after July 1, 1980, is subject to all provisions of this chapter, and to this section, except as otherwise expressly provided by the law creating the agency. A state agency created by law after July 1, 1980, shall automatically be placed on the appropriate sunset review schedule for review during the 4th succeeding calendar year.

(c) Any agency which has been recommended for termination or reorganization, but which nevertheless is continued by legislative action or otherwise, shall be automatically placed on the review schedule to be again reviewed at the end of 4 calendar years from the date of its last previous scheduled review date. Each agency which is reorganized in accordance with the recommendation of the Committee shall be placed on the review schedule to be again reviewed at the end of 4 calendar years from the date of its last previous scheduled review date. (62 Del. Laws, c. 301, § 3.)

§ 10215. Termination; reestablishment.

(a) In the event the Committee recommends the termination of an agency, and such agency is not reestablished by an act of the General Assembly, such agency is automatically terminated at the end of June 30 following the date of the Committee report. Where there is no recommendation or no report, the agency is automatically terminated on the date set forth in the review schedule.

(b) When an agency is terminated, each lesser included board, council or agency is also automatically terminated at the same time and under the same conditions, unless such lesser included agency is specifically exempted from termination by the Committee or by law enacted prior to June 30 immediately following.

(c) Where the Committee recommends the reorganization of a review agency, or a merging of the agency with another agency, such reviewed agency shall nevertheless be terminated on the June 30 following the Committee report, unless prior to June 30 a bill is introduced setting forth a proposed reorganization or merger. If such bill is not enacted into law within 7 months from the date of its introduction, the agency shall then be automatically terminated.

(d) Where the Committee recommends continuance of an agency, but only upon its meeting certain conditions or making certain modifications, the agency shall terminate 6 months from the date of the final Committee report (or the termination date recommended by the Committee, whichever is latest) unless such conditions have been met or modifications made to the satisfaction of the Committee.

(e) Any act to reestablish an agency recommended by the Committee for termination or reorganization shall relate only to that specific agency, and the name of the affected agency shall be set forth in the title of the act. (62 Del. Laws, c. 301, § 3.)

Revisor's note.—Section 1 of 63 Del. Laws, c. 459, provides: "The provisions of § 10215 of Title 29 as they apply to the Office of State Bank Commissioner are hereby suspended until June 30, 1983; and if no futher legislation to reinstate such office is recommended by the Delaware Sunset Committee prior to July 1, 1983, this suspension shall automatically terminate."

§ 10216. Concluding year for terminated agencies.

(a) Upon the termination of an agency, it may continue in temporary existence until the end of the next succeeding calendar year, in order to properly conclude its business. Unless otherwise provided by law, termination shall not reduce or otherwise limit the power and authority of a terminated agency during such concluding year. Upon the expiration of the concluding year after termination, all rights, powers and functions of the agency shall cease. Any unobligated or unexpended appropriations of an agency terminated under this chapter shall lapse at the end of the concluding year.

(b) All money in a dedicated fund of a terminated state agency, shall, after the end of the concluding year, be immediately transferred to the General Fund of the State Treasury, unless otherwise provided for by law. Any law or portion of a law which dedicates money to a specific fund of a terminated agency shall become null and void at the end of the concluding year.

(c) If a terminated state agency is funded in the Budget Appropriation Act for each year of the General Assembly, the terminated agency shall have no authority to spend nor obligate any of such funds for any period after December 31 of the concluding year, unless specifically provided for by law.

(d) If the terminated agency is part of a larger department, division or agency all property and records in custody of the terminated agency shall be transferred to the next largest entity of which that agency was a part. If the terminated agency was itself the largest entity or was an independent agency, the property and records shall be transferred to the Secretary of State.

(e) If a terminated state agency has any outstanding bonded indebtedness remaining, the responsibility for the management of the repayment of such bonded indebtedness through the continuation of that agency's functions, limited merely to the repayment function, shall be vested in the State Treasurer. Any claim by the agency and any claim against the agency shall continue, and shall not be terminated with the agency.

(f) All Delaware Code references to be terminated state agency shall be invalid upon expiration of that agency's concluding year, unless specifically retained. (62 Del. Laws, c. 301, § 3.)

§ 10217. Merit System employees.

In the event the termination of an agency, program or activity results in unemployment for persons under the Merit System of Personnel Administration, each state employee so displaced shall receive first preference in all other state employment opportunities which arise thereafter for which he is qualified, and each such employee shall have the right of first refusal until permanent employment is obtained. HOUSE BILL NO. 449

An act relating to legislative review of advisory bodies, commissions, and boards of trustees adjunct to executive agencies; amending s. 11.611, Florida Statutes; providing legislative intent; providing definitions; repealing various provisions of law relating to advisory bodies, commissions, and boards of trustees adjunct to executive agencies; providing for review of such provisions prior to repeal; providing for periodic review of advisory bodies, commissions, and boards of trustees adjunct to executive agencies which are continued, reestablished, or created; prescribing criteria to be used in such review; prescribing criteria to be used in continuing, reestablishing, or creating such units of government; deleting provision for a joint select committee; providing for the abolition of units of government and the preservation of records; preserving certain causes of action; providing for effect on pending prosecutions, investigations, or disciplinary actions; amending s. 20.03(7), (8), (10), Florida Statutes, and adding subsection (12) to said section; providing definitions; adding s. 216.031(9), Florida Statutes; providing for a schedule to accompany executive agency budget requests; requiring the Division of Statutory Revision to place a list of repealed entities in the Florida Statutes; repealing chapter 78-323, Laws of Florida, and s. 11.6115, Florida Statutes, as amended, relating to the Sundown Act; repealing various provisions of the Laws of Florida which repeal various laws relating to advisory bodies, commissions, and boards of trustees adjunct to executive agencies and which require such laws to be reviewed pursuant to the Sundown Act; providing an effective date.

Be it enacted by the Legislature of the State of Florida:

SECTION 1. Section 11.611, Florida Statutes, is amended to read:

(Substantial rewording of section. See s. 11.611, F.S., for present text.)

11.611 LEGISLATIVE REVIEW OF ADVISORY BODIES, COMMISSIONS, AND BOARDS OF TRUSTEES ADJUNCT TO EXECUTIVE AGENCIES.—

(1) This section may be cited as the "Sundown Act."

(2) The Legislature finds it to be in the public interest to conduct a periodic and systematic review of the need for, and the benefits derived from, advisory bodies, commissions, and boards of trustees created by specific statutory enactment adjunct to executive agencies. The Legislature declares this act to be supplemental to the Regulatory Sunset Act. The Legislature finds that:

(a) New advisory bodies, commissions, and boards of trustees adjunct to executive agencies should be created only when they are determined to be essential to the furtherance of a public purpose and their number should be kept to the minimum necessary to achieve that purpose.

(b) Advisory bodies, commissions, and boards of trustees adjunct to executive agencies should be terminated by the Legislature when they are no longer essential to the furtherance of a public purpose. It is, therefore, incumbent upon the executive agency to which an advisory body, commission, or board of trustees is adjunct to advise the Legislature at the time an advisory body, commission, or board of trustees ceases to be essential to the furtherance of a public purpose.

(c) The Legislature and the public should be kept informed of the number, purpose, members, activities, and expenses of committees as defined in s. 20.03(8), advisory bodies, commissions, and boards of trustees adjunct to executive agencies.

(d) If a provision of the Florida Statutes scheduled for repeal by this act is subsequently amended or transferred, such subsequent amendment or transfer, unless otherwise expressly provided in the act amending or transferring such provision, shall not affect the scheduled repeal by this act of the provision of the Florida Statutes and such provision, as amended or transferred, shall stand repealed on the date specified in this act.

(e) If a provision of the Florida Statutes repealed pursuant to this act is also included for repeal pursuant to the Regulatory Sunset Act, the Legislature shall conduct a Sundown review of the advisory body, commission, or board of trustees created or reestablished by that provision at the same time it conducts the Sunset review of the regulatory function, notwithstanding the date of repeal of the provision creating or reestablishing the advisory body, commission, or board of trustees.

(f) If a provision of the Florida Statutes creating or reestablishing an advisory body, commission, or board of trustees is adjunct to a regulatory function in sections or chapters of the Florida Statutes repealed pursuant to the Regulatory Sunset Act, that provision shall be repealed at the same time as the section or chapter relating to the regulatory function to which it is adjunct, notwithstanding the date of the repeal of the provision creating or reestablishing the advisory body, commission, or board of trustees.

(3) As used in this section:

(a) "Advisory body" means any entity defined in s. 20.03(7) or (9), or any group, by whatever name, created by specific statutory enactment adjunct to an executive agency to provide advice or recommendations and policy alternatives.

(b) "Commission" means the entity defined in s. 20.03(10), or any group, by whatever name, created by specific statutory enactment within a department, the Office of the Governor, or the Executive Office of the Governor, that exercises limited quasi-legislative or quasi-judicial powers or both independently of the head of the department or the Governor.

(c) "Board of trustees" means the entity defined in s. 20.03(12), or any group, by whatever name, created by specific statutory enactment adjunct to a department, the Governor, or the Executive Office of the Governor to administer public property or a public program.

(4) Each provision of the Florida Statutes scheduled for repeal by this act shall be reviewed pursuant to this act prior to the date scheduled for repeal of the provision. Any act which, as a result of such review continues or reestablishes an advisory body, commission, or board of trustees established by a provision of the Florida Statutes repealed by this act shall schedule the provision of the Florida Statutes establishing such advisory body, commission, or board of trustees for a subsequent repeal and review within 10 years after the effective date of the act which continues or reestablishes such advisory body, commission, or board of trustees.

(5) Any act which creates an advisory body, commission, or board of trustees adjunct to an executive agency and which is enacted after the effective date of this act shall schedule the provison of law establishing such advisory body, commission, or board of trustees for repeal and review pursuant to this act within 10 years after the effective date of the act which creates such advisory body, commission, or board of trustees.

(6) In determining whether to reestablish an advisory body, commission, or board of trustees, the Legislature shall consider the following:

(a) Was the advisory body, commission, or board of trustees created to resolve a problem or provide a service?

(b) Has the problem been solved or the service provided?

(c) What has the advisory body, commission, or board of trustees done and what is it doing?

(d) Is the advisory body, commission, or board of trustees operating efficiently and effectively to perform its task?

(e) Would there be a significant and discernible adverse effect on the executive agency if the advisory body, commission, or board of trustees were abolished?

(f) Would there be a significant and discernible adverse effect on the public if the advisory body, commission, or board of trustees were abolished?

(7) An advisory body, commission, or board of trustees shall not be created or reestablished unless:

(a) There is a statutorily defined purpose for the advisory body, commission, or board of trustees.

(b) The powers and responsibilities assigned to the advisory body, commission, or board of trustees conform with the definitions of governmental units in s. 20.03.

(c) All members, unless expressly provided otherwise in the State Constitution, are appointed for 4-year staggered terms.

(d) All members, unless otherwise expressly provided by specific statutory enactment, service without additional compensation or honorarium and are authorized to receive only reimbursement for per diem and traveling expenses as provided in s. 112.061.

(8) Private citizen members of an advisory body adjunct to an executive agency shall be appointed by the Governor, the head of the department, the executive director of the department, or a Cabinet officer.

(9) Private citizen members of a commission or board of trustees adjunct to an executive agency shall be appointed by the Governor, or designated Cabinet officer, shall be confirmed by the Senate, and shall be subject to the dual officeholding prohibition of Art. II, Section 5(a), State Constitution.

(10) Minutes, including a record of all votes cast, shall be maintained for all meetings of each advisory body, commission, and board of trustees.

(11) Within 30 days after the date of repeal by this act of any provision of the Florida Statutes, the records of the advisory body, commission, or board of trustees abolished by such repeal shall be appropriately stored by the executive agency to which the advisory body, commission, or board of trustees is adjunct and any property assigned to such abolished advisory body, commission, or board of trustees shall be reclaimed by the executive agency. An advisory body, commission, or board of trustees abolished by repeal of any provision of the Florida Statutes may not perform any activities after the date of such repeal.

(12) This act shall not affect the right to institute or prosecute any cause of action by or against an advisory body, commission, or board of trustees abolished pursuant to this act if the cause of the action accrued prior to the date the advisory body, commission, or board of trustees was abolished. Any cause of action pending on the date the advisory body, commission, or board of trustees is abolished, or instituted thereafter, shall be prosecuted or defended in the name of the state by the Department of Legal Affairs.

(13) Any repeal or amendment of any statute or rule pursuant to this act shall not affect any prosecution, investigation, or disciplinary action for any act committed before such repeal or amendment.

(14) The following provisions of the Florida Statutes are repealed on October 1, 1987, and shall be reviewed by the Legislature pursuant to this section:

11.61 Legislative review of regulatory functions

(1) This act may be cited as the "Regulatory Sunset Act."

(2) It is the intent of the Legislature:

(a) That no profession, occupation, business, industry, or other endeavor be subject to regulation by the state unless such regulation is necessary to protect the public health, safety, or welfare from significant and discernible harm or damage and that the police power of the state be exercised only to the extent necessary for that purpose.

(b) That the state not regulate a profession, occupation, business, industry, or other endeavor in a manner which will unreasonably and adversely affect the competitive market.

(c) That the Legislature conduct a periodic and systematic review of the need for, and the benefits derived from, a program or function which licenses or otherwise regulates a profession, occupation, business, industry, or other endeavor and, pursuant to such review, terminate, modify, or reestablish the program or function.

(d) That, if a chapter or section of the Florida Statutes scheduled for repeal by s. 2 of chapter 81–318, Laws of Florida, is subsequently amended or transferred, such subsequent amendment or transfer, unless otherwise expressly provided in the act amending or transferring such chapter or section, not affect the scheduled repeal by s. 2 of chapter 81–318 of the provisions of such chapter or section and such chapter or section as amended or transferred be repealed on the date specified in s. 2 of chapter 81–318.

(3) Each appropriate substantive committee shall begin review of a program or function 15 months prior to the date set for repeal of the section or chapter and shall make a recommendation, on or before February 1 prior to such repeal date, for continuation, modification, or repeal of the program or function established by such section or chapter.

(4) Each section and each chapter of the Florida Statutes scheduled for repeal by s. 2 of chapter 81–318, Laws of Florida, shall be reviewed pursuant to this section prior to the date scheduled for repeal of the section or chapter. Any act which, as a result of such review, continues or reestablishes a program or function established by a section or chapter of the Florida Statutes repealed by s. 2 of chapter 81–318 shall schedule the section or chapter of the Florida Statutes establishing such program or function for subsequent repeal and for review pursuant to this section within 10 years after the effective date of the act which continues or reestablishes such program or function.

(5) Any act which creates a program or function which in part regulates the entry into any profession, occupation, business, industry, or other endeavor and which is enacted after July 8, 1981, shall schedule the act establishing such program or function for subsequent repeal and for review pursuant to this section within 10

years after the effective date of the act which creates such program or function.

(6) In determining whether to reestablish a program or function, the Legislature shall consider the following criteria:

(a) Would the absence of regulation significantly harm or endanger the public health, safety, or welfare?

(b) Is there a reasonable relationship between the exercise of the police power of the state and the protection of the public health, safety, or welfare?

(c) Is there a less restrictive method of regulation available which would adequately protect the public?

(d) Does the regulation have the effect of directly or indirectly increasing the costs of any goods or services involved and, if so, to what degree?

(e) Is the increase in cost more harmful to the public than the harm which could result from the absence of regulation?

(f) Are any facets of the regulatory process designed for the purpose of benefiting, and do they have as their primary effect the benefit of, the regulated entity?

(7) Within 30 days after the date of repeal, by s. 2 of chapter 81-318, Laws of Florida, of any section or chapter of the Florida Statutes, the unite of government or the subunit thereof and the personnel positions which are responsible for carrying out only the functions and programs created by such section or chapter shall be abolished, and all unexpended balances of appropriations, allocations, or other funds for such program or function shall revert to the fund from which they were appropriated or, if that fund is abolished, to the General Revenue Fund. A unit or subunit of government may not perform any regulatory activities after the date of repeal of such section or chapter of the Florida Statutes.

(8) Any fees collected pursuant to a program or function subsequently abolished shall be refunded on a pro rata basis by the unit or subunit of government that was abolished, or by the Comptroller pursuant to s. 215.26, upon request of the person who paid the fee, if such request is made within 1 year after the abolition of the program or function.

(9) This act shall not affect the right to institute or prosecute any cause of action by or against a unit or subunit of government abolished pursuant to this act if the cause of action accrued prior to the date the unit or subunit was abolished. Any cause of action pending on the date the unit or subunit is abolished, or instituted thereafter, shall be prosecuted or defended in the name of the state by the Department of Legal Affairs.

(10) Any repeal or amendment of any regulatory statute or rule pursuant to this act shall not affect any prosecution, investigation, or disciplinary action for any act committed before such repeal or amendment.

Laws 1981, c. 81-318, § 1, rewrote this section which prior thereto provided:

"(1) This act shall be known as the 'Regulatory Reform Act of 1976.'

"(2) It is the intent of the Legislature:

"(a) That no profession, occupation, business, industry, or other endeavor shall be subject to the state's regulatory power unless the exercise of such power is necessary to protect the public health, safety, or welfare from significant and discernible harm or damage. The exercise of the state's police power shall be done only to the extent necessary for that purpose.

"(b) That the state shall not regulate a profession, occupation, industry, business, or other endeavor in a manner which will unreasonably adversely affect the competitive market.

"(c) To provide systematic legislative review of the need for, and the public benefits derived from, a program or function which licenses or otherwise regulates the initial entry into a profession, occupation, business, industry, or other endeavor by a periodic review and termination, modification, or reestablishment of such programs and functions.

"(3) Legislative committee review of licensing and regulatory functions shall begin 2 years prior to the repeal date of the respective sections and chapters enumerated in subsections (2), (3), and (4) of s. 3, chapter 76-168, Laws of Florida, and shall conclude with a recommendation, on or before January 1 prior to the repeal date, for continuation, modification, or repeal.

"(4) In determining whether to reestablish a program or function, the Legislature shall consider the following criteria:

"(a) Would the absence of regulation significantly harm or endanger the public health, safety, or welfare?

"(b) Is there a reasonable relationship between the exercise of the state's police power and the protection of the public health, safety, or welfare?

"(c) Is there another, less restrictive method of regulation available which could adequately protect the public?

"(d) Does the regulation have the effect of directly or indirectly increasing the costs of any goods or services involved and, if so, to what degree?

"(e) Is the increase in cost more harmful to the public than the harm which could result from the absence of regulation?

"(f) Are all facets of the regulatory process designed solely for the purpose of, and have as their primary effect, the protection of the public?

"(5) One year from the date of repeal of any section or chapter enumerated in s. 3, chapter 76-168, Laws of Florida, the unit of government or subunit thereof and the personnel positions responsible for carrying out the powers, duties, and functions created by such section or chapter shall be abolished, and all unexpended balances of appropriations, allocations, or other funds shall revert to the fund from which they were appropriated or, if that fund is abolished, to the General Revenue Fund.

"(6) Any program or function scheduled for termination under this act or any subsequent act may be reestablished by the Legislature for any period of time specified by law, not to exceed 6 years at the end of which time the Legislature shall again review such program or function pursuant to s. 3, chapter 76-168, Laws of Florida, and may again reestablish, modify, or allow the termination of, such program or function pursuant to this section.

"(7) Any program or function created in part to regulate the entry into any profession, occupation, business, industry, or other endeavor by law enacted after the effective date of this act shall be reviewed by the Legislature, as required in s. 3, chapter 76-168, Laws of Florida, beginning not later than 48 months after the law authorizing the regulation becomes law, and such review shall be completed not later than January 1 of the next odd-numbered year following the commencement of review. Any such law is repealed on July 1 of such odd-numbered year unless reestablished by the Legislature.

"(8) The Speaker of the House and the President of the Senate shall act to appoint a select joint committee to be named no later than January 1, 1977. Said select joint committee shall be charged with the duty of assisting in the implementation of the provisions of this act and shall be charged with the duty of establishing administrative procedures which shall facilitate the review and evaluation required in this act. The appropriate substantive committees of both the House and Senate, upon assignment by the Speaker and the President, respectively, and sitting jointly, shall be responsible for completing the review and evaluation required in this act. A report of their recommendations and a proposed bill shall be completed pursuant to subsection (3) and shall be submitted to the offices of the Speaker and the President for distribution to legislators prior to the ensuing legislative session.

"(9) This act shall not affect the right to institute or prosecute any cause of action by or against a unit or subunit of government terminated pursuant to this act if the cause of action accrued prior to the date the unit or subunit was terminated. Any cause of action pending on the date the unit or subunit is terminated, or instituted thereafter, shall be prosecuted or defended in the name of the state by the Department of Legal Afairs."

REVIEW, CONTINUATION, RE-ESTABLISHMENT OR TERMINATION OF REGULATORY AGENCIES

Ga. Code Ann. § 84-101b et seq. (1982 Cum. Pocket Part)

CHAPTER 84-1B. REVIEW, CONTINUATION, REESTABLISHMENT OR TERMINATION OF REGULATORY AGENCIES

84-101b [43-2-1] Short title

This chapter shall be known and may be cited as "The Act Providing for the Review, Continuation, Reestablishment, or Termination of Regulatory Agencies."

(Acts 1977, p. 961.)

84-102b [43-2-2] Findings and purpose

The General Assembly finds that the need for and the effectiveness of many regulatory agencies which have been created in this state have not been systematically evaluated. It is the purpose of this chapter to establish a procedure for the systematic review of regulatory agencies to the end that those which do not serve the public interest shall be terminated and that others which do serve a public need shall be continued or modified to increase their effectiveness and efficiency.

(Acts 1977, p. 961.)

84-103b [43-2-3] Regulatory agency defined

As used in this chapter, the term "regulatory agency" means any department, division, board, bureau, commission, or other agency of the executive branch of the state government which:

(1) As of July 1, 1978, had been assigned a date for termination;

(2) Was created by law after January 1, 1977, for the purpose of licensing or otherwise regulating or controlling any profession, business, or trade; or

(3) Is specifically assigned a date for termination by law.

(Acts 1977, pp. 961, 962.)

84-104b Legislative review

84-104b [43-2-5] Legislative review

(a) The President of the Senate and the Speaker of the House of Representatives shall assign each of the regulatory agencies to a standing committee of their respective houses for the purpose of review. Prior to termination, continuation, or reestablishment of any regulatory agency, the Senate and House committees to which a particular agency is assigned shall conduct a joint public hearing or hearings for the purpose of receiving testimony from the public and from the officials of the regulatory agency involved relative to the need for and the effectiveness and efficiency of the agency. At any such hearing, the agency shall have the burden of demonstrating a public need for its continued existence.

(b) The determination as to whether a regulatory agency has demonstrated a public need for its continued existence shall take into consideration, among others, the following factors:

(1) Whether the absence of regulation would significantly harm, affect, or endanger the public health, safety, or welfare;

(2) Whether there is a less restrictive method of regulation available which would adequately protect the public;

(3) The extent to which the regulatory agency has permitted qualified applicants to serve the public;

(4) The extent to which affirmative action requirements of state and federal statutes and consitutions have been complied with by the regulatory agency or the profession, business, or trade it regulates;

(5) The extent to which the regulatory agency has operated in the public interest and the extent to which its operation has been impeded or enhanced by existing statutes, procedures, practices, and rules and regulations, and any other circumstances, including budgetary, resource, and personnel matters;

(6) The extent to which the regulatory agency has recommended statutory changes to the General Assembly which would benefit the public as opposed to the persons it regulates;

(7) The extent to which the regulatory agency has required the persons it regulates to report to it concerning the impact of rules and decisions of the regulatory agency on the public regarding improved service, economy of service, and availability of service;

(8) The extent to which persons regulated by the regulatory agency have been required to assess problems in their profession, business, or trade which affect the public;

(9) The extent to which the regulatory agency has encouraged participation by the public in making its rules and decisions as opposed to participation solely by the persons it regulates;

(10) The efficiency with which formal public complaints field with the regulatory agency concerning persons subject to regulation have been processed to completion by the regulatory agency; and

(11) The extent to which changes are necessary in the enabling laws of the regulatory agency to comply adequately with the factors listed in this subsection.

(Acts 1977, pp. 961, 962; 1978, p. 2012.)

This audit shall include, without being limited to, a summary listing of the audit findings and a determination regarding each finding as to whether the regulatory agency, the joint-secretary, or both, or some other entity exercises major responsibilities in the area relating to the finding. The performance audit shall be completed by the first day of October during the year such audit is conducted.

(b) A copy of each performance audit conducted pursuant to subsection (a) of this Code section shall be submitted, within 15 days after completion, to:

(2) The presiding officers of the Senate and House of Representatives;

(3) The governor, the Attorney General, and the legislative counsel;

(4) The chairperson of the audited regulatory agency; and

(5) The joint-secretary.

(c) Within 30 days after submission of the performance audit, the regulatory agency and the joint-secretary shall each submit a written response as to each audit finding in those areas in which that agency or joint-secretary has been determined by the audit to exercise major responsibilities. Such response shall include, without being limited to, the following:

(1) Whether or not the agency or joint-secretary agrees with that finding and the reasons therefore;

(2) What steps have been or will be taken to address each issue raised in each finding, whether the steps are regulatory or proposed statutory changes, and the proposed effective date of any such regulatory changes; and

(3) If no steps have been or will be taken to address any issue raised in the finding, the reasons therefore.

(d) No later than February 15 immediately following the submission of a written response under subsection (c) of this Code section, at the request of a standing committee assigned review, that response shall be updated and resubmitted by the joint-secretary and audited regulatory agency.

(c) Responses required by subsections (c) and (d) of this Code section shall be submitted to those persons designated in paragraphs (1), (2), and (3) of subsection (b) of this Code section to receive copies of performance audits.

(f) The response of a regulatory agency in addressing or failing to address issues raised in the audit finding, in those areas in which that agency has been determined to exercise major responsibilities, shall be a major consideration regarding the decision by any standing committee concerning its recommendation as to the continuation, termination, or reestablishment of that regulatory agency. The report of such committee regarding such recommendation shall include a specific finding as to whether or not the regulatory agency in question has evidenced good faith efforts to address those issues raised in the performance audit.

(g)(1) Any Senate or House standing committee may request at any time, in writing, the state auditor to conduct a performance audit of any agency assigned to the committee for review or may request, in writing, the regulatory agency and the joint-secretary to submit a written response to the last performance audit of that agency conducted by the state auditor.

(2) If a performance audit is requested by a standing committee within the time limits provided in subsection (a) of this Code sec-

tion, it shall be deemed to satisfy the requirement for the performance audit provided in subsection (a) of this Code section.

84-101b Short title

This Chapter shall be known and may be cited as "The Act Providing for the Review, Continuation, Reestablishment or Termination of Regulatory Agencies."
(Acts 1977, p. 961, eff. July 1, 1977.)

84-102b Findings and purpose

The General Assembly finds that the need for and the effectiveness of many regulatory agencies which have been created in the State of Georgia have not been systematically evaluated. It is the purpose of this Chapter to establish a procedure for the systematic review of regulatory agencies to the end that those which do not serve the public interest shall be terminated and that others which do serve a public need shall be continued or modified to increase their effectiveness and efficiency.
(Acts 1977, p. 961, eff. July 1, 1977.)

84-103b Regulatory agency defined

As used in this Chapter, unless the context clearly requires otherwise, "regulatory agency" means any agency specified in section 84-107b and any department, division, board, bureau, commission or other agency of the executive branch of the State government created by law after January 1, 1977, which is created for the purpose of licensing or otherwise regulating or controlling any profession, business or trade.
(Acts 1977, pp. 961, 962, eff. July 1, 1977.)

84-104b Legislative review

(a) The President of the Senate and the Speaker of the House of Representatives shall assign each of the regulatory agencies to a standing committee of their respective Houses for the purpose of review. Prior to termination, continuation or reestablishment of any regulatory agency, the Senate and House committees to which a particular agency is assigned shall conduct a joint public hearing or hearings for the purpose of receiving testimony from the public and from the officials of the regulatory agency involved relative to the need for and the effectiveness and efficiency of the agency. At any such hearing, the agency shall have the burden of demonstrating a public need for its continued existence.

(b) the determination as to whether a regulatory agency has demonstrated a public need for its continued existence shall take into consideration, among others, the following factors:

(1) whether the absence of regulation would significantly harm, affect or endanger the public health, safety or welfare;

(2) whether there is a less restrictive method of regulation available which would adequately protect the public;

(3) the extent to which the regulatory agency has permitted qualified applicants to serve the public;

(4) the extent to which affirmative action requirements of State and Federal statutes and constitutions have been complied with by the regulatory agency or the profession, business or trade it regulates;

(5) the extent to which the regulatory agency has operated in the public interest and the extent to which its operation has been impeded or enhanced by existing statutes, procedures, practices and rules and regulations, and any other circumstances, including budgetary, resource and personnel matters;

(6) the extent to which the regulatory agency has recommended statutory changes to the General Assembly which would benefit the public as opposed to the persons it regulates;

(7) the extent to which the reguatory agency has required the persons it regulates to report to it concerning the impact of rules and decisions of the regulatory agency or the public regarding improved service, economy of service and availability of service;

(8) the extent to which persons regulated by the regulatory agency have been required to assess problems in their profession, business or trade which affect the public;

(9) the extent to which the regulatory agency has encouraged participation by the public in making its rules and decisions as opposed to participation solely by the persons it regulates;

(10) the efficiency with which formal public complaints filed with the regulatory agency concerning persons subject to regulation have been processed to completion by the regulatory agency; and

(11) the extent to which changes are necessary in the enabling laws of the regulatory agency to adequately comply with the factors listed in this subsection.

(Acts 1977, pp. 961, 962; 1978, p. 2012, eff. April 5, 1978.)

A copy of each such audit shall be submitted to each member of the Senate and House committees to which the particular agency has been assigned for review, to the presiding officers of the Senate and the House or Representatives, to the Governor, to the Attorney General and to the Legislative Counsel.

Legislative findings and purpose, see L 1977, c 70, § 1.
Severability clause, see L 1977, c 70, § 3.

[§ 26H-2] Policy

The legislature hereby adopts the following policies concerning professional and vocational regulation within the State:

(1) The regulation and licensing of professions and vocations by the State shall be undertaken only where reasonably necessary to protect the health, safety or welfare of consumers of the services; the purpose of regulation shall be the protection of the public welfare and not that of the regulated profession or vocation.

(2) Even where regulation of professions and vocations is reasonably necessary to protect consumers, government interference should be minimized; if less restrictive alternatives to full licensure are available, they should be adopted;

(3) Professional and vocational regulation shall not be imposed except where necessary to protect relatively large numbers of consumers who because of a variety of circumstances may be at a disadvantage in choosing or relying on the provider of the service;

(4) Evidence of abuses by providers of the service shall be accorded great weight in determining whether government supervision is desirable;

(5) Professional and vocational regulation which artifically increases the costs of goods and services to the consumer should be avoided;

(6) Professional and vocational regulation should be eliminated where its benefits to consumers are outweighed by its costs to taxpayers; and

(7) Regulation shall not unreasonably restrict entry into professions and vocations by all qualified persons. [L 1977, c 70, pt of § 2]

Title of Act: An Act in relation to regulatory agencies and to their termination or continuation, and repealing certain Acts therein named. P.A. 81-999, approved and eff. Sept. 22, 1979.

1902. Legislative findings and intent

§ 2. (a) The General Assembly finds that State government actions have produced a substantial increase in numbers of agencies, growth of programs and proliferation of rules and regulations and that the whole process developed without sufficient legislative oversight, regulatory accountability or a system of checks and balances. The General Assembly further finds that by establishing a system for the termination or continuation of such agencies, it will be in a better position to evaluate the need for the continued existence of present and future regulatory bodies.

(b) It is the intent of the General Assembly:

(1) That no profession, occupation, business, industry or trade shall be subject to the State's regulatory power unless the exercise of such power is necessary to protect the public health, safety or welfare from significant and discernible harm or damage. The exercise of the State's police power shall be done only to the extent necessary for that purpose.

(2) That the State shall not regulate a profession, occupation, industry, business or trade in a manner which will unreasonably and adversely affect the competitive market.

(3) To provide systematic legislative review of the need for, and public benefits derived from, a program or function which licenses or otherwise regulates the initial entry into a profession, occupation, business, industry or trade by a periodic review and termination, modification, or continuation of such programs and functions.

1906. Termination or continuation of agencies—Factors in determination

§ 6. In conducting the study required under Section 5, the Bureau of the Budget shall consider, but is not limited to consideration of, the following factors in determining whether an agency should be recommended for termination or continuation:

(1) The extent to which the agency has permitted qualified applicants to serve the public;

(2) The extent to which the trade, business, profession, occupation or industry being regulated is being administered in a nondiscriminatory manner both in terms of employment and the rendering of services:

(3) The extent to which the regulatory agency has operated in the public interest, and the extent to which its operation has been impeded or enhanced by existing statutes, procedures, and practices of any other department of State government, and any other circumstances, including budgetary, resource, and personnel matters;

(4) The extent to which the agency has recommended statutory changes to the General Assembly which would benefit the public as opposed to the persons it regulates;

(5) The extent to which the agency has required the persons it regulates to report to it concerning the impact of rules and decisions of the agency on the public regarding improved service, economy of service, and availability of service;

(6) The extent to which persons regulated by the agency have been required to assess problems in their industry which affect the public;

(7) The extent to which the agency has encouraged participation by the public in making its rules and decisions as opposed to participation solely by the persons it regulates and the extent to which such rules and decisions are consistent with statutory authority;

(8) The efficiency with which formal public complaints filed with the regulatory agency concerning persons subject to regulation have been processed to completion, by the executive director of the regulatory agencies, by the Attorney General and by any other applicable department of State government; and

(9) The extent to which changes are necessary in the enabling laws of the agency to adequately comply with the factors listed in this section.

P.A. 81-999, § 6, eff. Sept. 22, 1979.

1907. Continuation of agency—Additional criteria in determination

§ 7. In determining whether to recommend to the General Assembly under Section 5[1] the continuation of a regulatory agency or any function thereof, the Governor shall also consider the following criteria:

(1) Whether the absence of regulation would significantly harm or endanger the public health, safety or welfare;

(2) Whether there is a reasonable relationship between the exercise of the State's police power and the protection of the public health, safety or welfare;

(3) Whether there is another less restrictive method of regulation available which could adequately protect the public;

(4) Whether the regulation has the effect of directly or indirectly increasing the costs of any goods or services involved, and if so, to what degree;

(5) Whether the increase in cost is more harmful to the public than the harm which could result from the absence of regulation; and

§ 192. Re-creation of terminated entity; compliance

Any statutory entity to be terminated by the provisions of R.S.49:191 may be re-created only in accordance with the procedure established in R.S. 49:193. Added by Acts 1976, No. 277, § 3.

§ 193. Re-creation of terminated entity; compliance

The procedure for re-creation of any statutory entity to be terminated under the provisions of this Part shall be as follows:

A. (1) By August 1 of the calendar year two years prior to the calendar year of the applicable termination date, the President of the Senate and the Speaker of the House of Representatives shall assign the applicable statutory entities to standing committees of their respective houses which shall be continued, modified, or terminated. The statutory entities shall be assigned, if practicable, to the standing committees of the two houses which have usual jurisdiction over the affairs of the statutory entities.

(2) The standing committees of the two houses performing the evaluation of the same statutory entities may meet jointly to discharge some or all of their duties.

B. No later than twenty days after the referral of the statutory entities to the appropriate standing committees, the committees shall, separately or jointly, notify the statutory entities under their jurisdiction of the termination dates and shall direct the statutory entities to conduct a zero base budget review in accordance with R.S. 39:41 through R.S. 39:45.1. No later than sixty days after the referral of the statutory entities to the appropriate standing committees, the statutory entities shall provide the standing committees with the following information:

(1) The identity of all sub-units under the direct or advisory control of the statutory entity under evaluation.

(2) All powers, functions, and duties currently performed by the statutory entity under evaluation.

(3) All constitutional, statutory, or other authority under which said powers, functions, and duties of the statutory entity under evaluation are performed and carried out.

(4) Any powers, functions, or duties which, in the opinion of the statutory entity under evaluation, are being performed and duplicated by another statutory entity or political subdivision within the state including the manner in which, and the extent to which, the duplication of efforts is occurring and any recommendations as to eliminating the duplication.

(5) Any powers, functions, or duties which, in the opinion of the statutory entity under evaluation, are inconsistent with current and projected public needs and which should be terminated or altered.

(6) The identity of any problems or any programs of the entity to which, in the opinion of the entity, the committees should give particular study.

(7) Any other information which a standing committee in its discretion, feels is necessary and proper in performing its review and evaluation duties.

C. The entity shall submit the zero base budget review requested pursuant to Subsection B above to the committees during the same calendar year as requested at the same time it submits such review to the governor under provisions of R.S. 39:45.1.

D. The evaluations by the standing committees shall be made, using the factors set out in Subsection E of this Section, for the purpose of achieving the following:

(1) The elimination of inactive entities.

(2) The elimination or consolidation of entities, programs, or activities which duplicate other governmental entities, programs, or activities.

(3) The elimination of unnecessary entities, programs, or activities or entities, programs, or activities which no longer serve the public interest.

(4) The elimination or improvement of inefficient or ineffective entities, programs, or activities.

E. Prior to the regular legislative session in the calendar year prior to the year in which the applicable termination date occurs, the appropriate standing committees, to which the statutory entities have been referred, shall conduct such study and evaluation as shall be necessary to determine whether or not proposed legislation shall be introduced to continue or modify the appropriate statutory entity. The standing committees shall hold public hearings to receive testimony from the appropriate statutory entities and from the public as a part of that study and evaluation. The standing committees shall hold the public hearings in accordance with R.S. 42:4.1 through R.S. 42.10 and any applicable legislative rules. At the hearings, the statutory entity shall have the burden of demonstrating a public need for its continued existence. A standing committee, in making a determination as to whether a statutory entity has demonstrated a public need for its continued existence, shall take into consideration, among others, the following factors:

(1) The extent to which any information required to be furnished to the standing committee has been omitted, misstated, or refused, and the extent to which conclusions reasonably drawn from said information are adverse to the legislative intent inherent in the powers, functions, and duties as established in the enabling legislation creating the statutory entity, or are inconsistent with present or projected public demands or needs.

(2) Based on the zero base budget review submitted and any other factors or information an examination of the extent to which the objectives of the statutory entity under evaluation have been achieved when compared to the objectives initially set forth for the statutory entity and an analysis of any significant variance between projected and actual performance.

(3) The extent to which the statutory entity has operated in the public interest and the extent to which its operation has been impeded or enhanced by existing statutes, procedures, and practices and any other circumstances, including budgetary, resource, and personnel matters.

(4) The extent to which the statutory entity has recommended statutory changes to the Legislature which would benefit the public as opposed to the statutory entity itself.

(5) An identification of other statutory entities, or other programs or activities of state or local government having the

same or similar objectives, together with a comparison of the cost effectiveness of such statutory entities, programs, or activities and any duplication of the statutory entity under review.

(6) A statement of the objectives of the statutory entity for the coming nine years with the establishment of measurements of performance where practicable.

(7) The extent to which the statutory entity has encouraged participation by the public in making its rules and decisions as opposed to participation solely by its constituency.

(8) The efficiency with which formal public complaints filed with the statutory entity concerning matters subject to its jurisdiction have been processed by the statutory entity.

(9) The extent to which changes are necessary in the enabling laws of the statutory entity to adequately comply with the factors listed in this Section.

(10) The extent to which the statutory entity's operation has been efficient and responsive to the public needs.

(11) The extent to which the statutory entity has encouraged that units regulated or served report to the statutory entity concerning the impact of rules and decisions regarding improved service, economy of service, or availability of service to the public.

(12) The extent to which the statutory entity has permitted qualified applicants to serve the public.

(13) The extent to which requirements of state and federal statutes and constitutions have been complied with by the statutory entity or the units it regulates or the constituency it serves.

(14) Any other relevant criteria which a standing committee, in its discretion, deems necessary and proper in reviewing and evaluating the sufficient public need for continuance of the respective statutory entity.

F. (1) The standing committees shall submit their final evaluation report to the legislature and the governor by April 1 before the ensuing regular legislative session in the year prior to the applicable termination date.

(2) The report of the standing committee shall include a summary of its findings concerning the factors listed in Subsection E above.

(3) The standing committee making the report shall recommend termination, continuation, or modification of the appropriate statutory entity, including any proposals for reoganization, consolidation or transfer of duties, of the statutory entity or program or activity. If the standing committee finds that a statutory entity should terminate as scheduled, then the committee's report shall include proposed legislation, which may be necessary, if any, to conform related laws to the termination of that statutory entity. If the standing committee finds that a statutory entity shall be continued or modified, then the committee's report shall include proposed legislation necessary to accomplish continuation or modification. If the committee finds that changes in particular programs of the entity are needed, the report shall include proposed legislation necessary to accomplish such changes.

(4) The committee report shall also include a statement of the objectives of the entity for the next nine years with the establishment of measures for performance where practicable.

(5) No recommendation of any joint reviewing committee shall be submitted in the report unless the recommendation is approved by the majority of the members of each house serving on the committee.

G. In the regular legislative session in the year prior to the year in which the applicable termination date occurs, a bill authorizing the re-creation of the statutory entity in question may be introduced and shall be referred to the standing committee that performed the initial review and evaluation. Such bill shall contain a termination date for the statutory entity being re-created no more than nine years from its effective termination date. No more than one statutory entity shall be re-created in any bill, but this limitation shall not be construed to prohibit consolidation of two or more statutory entities or parts of statutory entities in any one bill.

H. Unless the Legislature enacts the bill to continue or modify the entity, the entity shall begin to phase out its operations on the date set forth in R.S. 49:191 and the legislative authority for such statutory entity shall cease on the following July 1.

I. If the bill authorizing re-creation of an entity does not become law, the statutes creating and continuing such entity shall be construed as repealed on the applicable termination date fixed in R.S. 49:190 and R.S. 49:191.

J. No funds shall be appropriated or otherwise be made available from any source whatsoever to any entity after the applicable termination date of such statutory entity unless it has been re-created in accordance with the procedure set forth in this Part.

K. If the bill authorizing re-creation of an entity becomes law, the committee shall request, and the entity shall provide, a copy of the zero base budget for the entity prepared and submitted to the governor during the month of December prior to the termination date of the entity. Such budget shall be submitted to the committee at the time it is submitted to the governor. The committee shall review the zero base budget submitted by the entity and shall prepare a recommended budget level for the entity which it shall report to the Legislative Budget Committee, or its successor, prior to deliberations by the Legislative Budget Committee on the proposed budget for the fiscal year beginning on the applicable termination date for the entity.

L. Standing committees making the reviews and evaluation may request the assistance of the Legislative Fiscal Office, the Legislative Council, and the Legislative Auditor to compile pertinent information about the statutory entity under review for use during the evaluation.

In subsec. D, the amendment substituted "a bill providing for re-creation of entities" for "the bill"; substituted "each entity" for "the entity," and substituted, "Subsection A" for "Subsections A and C."

The amendment rewrote subsec. F, which had read: "The reviewing committee shall complete the zero-base budget review and evaluation required by R.S. 49:193 and however it reports the bill, it shall report also a recommended budget level for the entity."

The amendment also substituted "an" for "the" following "re-creation of" in both subsecs. G and H.

1979 Amendment: Rewrote subsecs. A to G, which had read as follows:

"A. By December 1 of the calendar year two years prior to the calendar year of the applicable termination date, the standing committee or committees having jurisdiction over the matter in accordance with the rules of the House of Representatives and of the Senate or the joint committee created for this purpose shall direct the statutory entity to conduct the zero-base budget review and evaluation. The committees shall separately or jointly notify the statutory entity of the termination date and shall include a notice of any additional specific matters which the committees direct the review and evaluation to address. The zero-base budget review and evaluation shall have as its chief objectives:

"(1) The elimination of inactive entities.

"(2) The elimination or consolidation of entities, programs, or activities which duplicate other governmental entities, programs, or activities.

"(3) The elimination of unnecessary entities, programs, or activities.

"(4) The elimination or improvement of inefficient or ineffective entities, programs, or activities.

The zero-base budget review and evaluation shall be submitted to the committees no later than April 30 of the year prior to the applicable termination date. During the year prior to the year of the applicable termination date, the committee(s) shall conduct such study and evaluation as shall be necessary to determine whether or not proposed legislation shall be introduced to re-create the statutory entities scheduled for termination.

"B. By February 1 of the year of termination, the committees shall have determined the adequacy and accuracy of the zero-base budget review and evaluation and shall submit a report to both houses of the legislature. Such report shall include but not be limited to:

"(1) An identification of other entities, or other programs or activities of the state government having the same or similar objectives, along with a comparison of the cost and effectiveness of such entities, programs, or activities and any duplication of the entity under review.

"(2) An examination of the extent to which the objectives of the entity under review have been achieved when compared to the objectives initially set forth for the entity under review and an analysis of any significant variance between projected and actual performance.

"(3) A statement of the objectives of the entity for the coming four years with the establishment of measurements of performance where feasible.

"(4) Recommendations for legislation to make any changes to implement the committee's findings and recommendations.

"C. In the regular legislative session in the year prior to the year in which the applicable termination date occurs, a bill authorizing the re-creation of the entities in question may be introduced and shall be referred to the same reviewing committee. Such bill shall contain a termination date for each entity which is being re-created, no more than four years from the effective date of its re-creation. No such bill may contain re-creation authority for statutory entities of more than one department.

"D. Upon receipt of a bill providing for re-creation of entities, the reviewing committee may conduct such further hearings to evaluate each entity in question as may be necessary. Hearings by one committee are sufficient to satisfy the requirements of Subsection A of this Section.

"E. In all hearings required by this Part, the entity shall have the burden of proving a public need for its re-creation.

"F. The reviewing committee shall complete its review of the zero-base budget review and evaluation conducted by the entity as directed by the committee as provided by Section 193 hereof for all entities whether they have been re-created or not and shall also report a recommended budget level for the entity in the report required in Subsection B.

"G. If the bill authorizing re-creation of an entity becomes law, it shall be presented to the Legislative Budget Committee, along with the budget level recommended by the reviewing committee, for deliberations by the Legislative Budget Committee on the proposed budget for the fiscal year beginning on the applicable termination date for the entity."

The amendment also redesignated the prior subject matter of subsecs. H and I as subsecs. I and J. respectively; in subsec. I added "and R.S. 49:191"; in subsec. J added "statutory"; and added subsecs. H, K, and L.

§ 193.1 Selective review and evaluation for statutory entities

A. To facilitate an orderly review and evaluation procedure, and to ensure thorough study is given to the statutory entities scheduled for termination, the standing committees may conduct a more extensive evaluation of selected statutory entities under its jurisdiction or of particular programs of such entities than that given to the remaining statutory entities scheduled for review and termination.

B. The selection of those statutory entities or programs to receive extensive evaluation shall be made by taking the following factors, among others, into consideration:

(1) The extent to which the statutory entity or program appears to require significant change.

(2) The extent to which the resources of the legislature will allow for such evaluation.

(3) The extent to which substantial time has passed since the statutory entity or program has been in effect and in operation.

C. The selection of these statutory entities or programs to receive the extensive evaluation shall be made no later than twenty days following the referral of the statutory entities to the standing committees.

D. The standing committees shall notify the entities or program administrators of programs selected for extensive evaluation at the same time the standing committees comply with R.S. 49:193(B).

E. The standing committees making such extensive evaluation may instruct the Legislative Fiscal Office, the Legislative Council, or the Legislative Auditor to make such performance audits, programmatic evaluations, and other studies as are needed to enable the standing committees to effectively conduct these evaluations.

Nothing in this Part shall be construed to prohibit any action by the legislature or by any state officer pursuant to the provisions of Section 6 of Article XIV of the constitution or any Act enacted under authority thereof."

In the same manner, and otherwise as provided in Section 193 for the review and evaluation of statutory entities of the respective departments. Such review and evaluation shall give particular attention to objectives (2) through (4) as provided in Subsection A of Section 193. Such review and evaluation shall be submitted to the committees, reviewed and acted upon as otherwise provided in Section 193 for reviews and evaluations of statutory entities. The committee shall also conduct such studies and make such recommendations relative to such programs and activities of the department as is provided in section 193 for statutory entities."

PROGRAM EVALUATION ACT

§ 484. Public policy; purpose of subtitle.

It is essential to the maintenance of a healthy State economy and a government that has the confidence of its citizens that the State establish a system of periodic legislative review of State regulatory, licensing, and other government activities. This review of executive branch performance is consistent with other activities and goals of the General Assembly. The purpose of this review is to determine which functions are necessary to serve the public interest and to make regulatory boards and other government activities accountable and responsive to the public interest in carrying out these necessary functions. The purpose of this subtitle is to ensure that this periodic review of State regulatory, licensing, and other government activities takes place by establishing statutory deadlines for legislative evaluation and legislative action. (1978, ch. 808, § 1; 1982, ch. 519, § 1.)

Effect of amendment.—The 1982 amendment, effective July 1, 1982, substituted "Program Evaluation Act" for "Regulatory Programs Evaluation Act of 1978" in the subtitle heading, substituted "licensing, and other government activities" for "and licensing activities" in the first and last sentences, eliminated "regulatory" preceding "functions" in the third sentence and added "and other government activities" in that sentence.

Editor's note.—Section 4, ch. 519, Acts 1982, provides that "the provisions of this act that require certain actions by legislative committees are enacted by the General Assembly as an exercise of the rulemaking power of the Senate and the House of Delegates. They shall be considered as part of the rules of each House with full recognition of the constitutional right of either House to change the rules, as relating to its House, at any time in the same manner as any other rule of the House."

Section 5 of ch. 519 provides that "the Policy Committee of the General Assembly shall undertake a study of the act and shall report to the General Assembly by December 1, 1991. The study shall include an evaluation of the quality and effectiveness of the evaluation performed under this act, the implementation of the recommendations made by the Department of Fiscal Services and the legislative committees, and the impact of the act on the General Assembly."

§ 5-9-3. Legislative purpose.

The legislature finds that the growth of state government has produced a substantial increase in numbers of governmental units, growth of programs and proliferation of rules and regulations. The legislature finds that the entire structure of state government needs present and future periodic review to ferret out duplication of programs and unnecessary expenditures. The legislature further finds that by establishing a system for the termination, continuation or modification of certain governmental units, it will be in a better position to evaluate the need for the continued existence of existing and future governmental units.

§ 5-9-13. Executive orders establishing governmental units enacted into statutory law.

(1) Executive orders issued by governors after the effective date of this chapter which establish, or have the effect of establishing, a governmental unit shall be terminated unless they are enacted into statutory law in the following manner. If such a governmental unit is established while the legislature is in regular session and more than thirty (30) days prior to the scheduled adjournment of that session, it must be enacted into statutory law by the scheduled date of adjournment or else it is terminated on that date by operation of law. In the event such a governmental unit is established while the legislature is in session but less than thirty (30) days before scheduled adjournment or if such a governmental unit is created while the legislature is not in session, then it must be enacted into statutory law by the date of adjournment of the next regular session of the legislature or else it is terminated on that date by operation of law.

(2) The legislature may establish a governmental unit by statute as it was created in the executive order or it may enact such changes in the status, powers or jurisdiction of the governmental unit as it may deem necessary and proper.

(3) No governmental unit created by executive order shall incur any obligations, financial or otherwise, or enter into any contracts or other commitments which extend beyond the date of adjournment of the legislative session in which the agency must be enacted into statutory law to avoid termination.

(4) Failure of the governmental unit to be enacted into statutory law shall not invalidate any act done by any officer or employee thereof if the act is otherwise lawful and has been fully executed prior to the date of termination.

(5) No power, duty or authority of any governmental unit which fails to be enacted into statutory law as required by this section shall be transferred in any manner other than by legislative enactment to any existing agency, nor shall any such power, duty or authority be allocated to any successor governmental unit in any manner other than by legislative enactment. No funds shall be appropriated to or otherwise made available from any source whatsoever to a governmental unit created by executive order which was not enacted into statutory law as provided in this section.

(6) A governmental unit created by executive order after the effective date of this chapter shall not duplicate the functions of other governmental units created by statute.

§ 5-9-15. Continuation of life of governmental units—phasing out period.

(1) The life of any governmental unit scheduled for termination under this chapter may be continued by the legislature for a period not to exceed eight (8) years. Any newly created governmental unit shall have a life not to exceed eight (8) years and shall be subject to the provisions of this chapter.

(2) A governmental unit shall begin phase out operations on July 1 if the legislature has not continued or modified it. A governmental unit must phase out its operations as soon as possible, but the phase out period cannot extend beyond the termination day of December 31. The fact that a unit has begun phase out operations shall not reduce or otherwise limit the powers or authority of the governmental unit to wind-down those programs and activities being conducted at the beginning of the phase out period, but the unit cannot initiate any new programs or activities during its phase out period. Not later than December 31 of the calendar year in which an agency is terminated, the governmental unit shall cease all activities, and all unexpended funds in any general or special fund shall revert to the general fund, unless otherwise provided by the legislature. On said December 31, the code sections set forth in sections 31-3-25, 41-3-30, 53-1-201, 63-17-107, 69-21-127, 71-3-113, 73-1-45, 73-2-27, 73-3-401, 73-5-45, 73-6-33, 73-7-63, 73-9-67, 73-11-33, 73-13-99, 73-14-49, 73-15-37, 73-17-17, 73-19-31, 73-21-69, 73-23-27, 73-29-49, 73-31-31, 73-33-19, 73-35-37, 73-36-37, 73-37-27, 73-38-37, 73-39-39, 75-75-125, 77-1-51, 81-1-54, 81-3-54, 81-3-14, 81-12-209, 81-13-77, 83-1-41, 83-3-301, or other authority of this chapter relating to each unit being phased out shall stand repealed or rescinded. Unless otherwise provided by law, all records, reports, files, papers and other materials of a terminated unit shall be deposited with the secretary of state for custodial retention.

§ 5-9-17. Reviewing committees—assignment of governmental units—joint meetings.

(1) By the final day of the regular session preceding the year in which governmental units are to be reviewed, the lieutenant governor and the speaker of the house of representatives shall assign each governmental unit to one of the existing standing committees of their respective houses which shall initially consider the termination, continuation or modification of the governmental units. Each of the governmental units shall be assigned, if practicable, to the legislative committee which has usual jurisdiction over the affairs of that governmental unit. A committee chairman may appoint subcommittees to discharge the duties of the committee; however, the recommendations to the legislature and the governor concerning each governmental unit shall be made by the full committee.

(2) The reviewing committees of the two (2) houses, or subcommittees thereof, which will review the same governmental unit, may meet jointly to discharge some or all of their duties. In the event that the reviewing committees, or subcommittees thereof, vote to meet jointly, then the membership of both committees, or subcommittees thereof, as the case may be, shall elect a chairman and a vice-chairman. To win election, a nominee must receive the vote of a majority of the members of each house serving on the committee or the subcommittee, as the case may be.

§ 5-9-19. Reviewing committees—public hearings—information provided by governmental units.

After assignment of the governmental units to committees by the lieutenant governor and the speaker of the house, and prior to the regular session at which termination, continuation or modification of any such governmental unit is considered, the reviewing committees, meeting separately or jointly, shall hold public hearings to receive testimony from the public and the governmental unit involved. The reviewing committee shall give reasonable public notice of the time and location of the public hearings. At the hearing the governmental unit shall have the burden of demonstrating a public need for its continued existence. All governmental units shall provide each committee with the following information:

(b) All powers, duties and functions currently performed by the unit under review;

(c) All constitutional, statutory, or other authority under which said powers, duties and functions of the unit are carried out;

§ 5-9-21. Reviewing committees—criteria for determination of continued existence of governmental unit.

A reviewing committee in making a determination as to whether a governmental unit has demonstrated a public need for its continued existence shall take into consideration, among others, the following factors:

(a) The extent to which any information required to be furnished to the reviewing committee pursuant to section 5-9-19 has been omitted, misstated, or refused, and the extent to which conclusions reasonably drawn from said information is adverse to the legislative intent inherent in the powers, duties and functions as established in the enabling legislation creating said agency, or is inconsistent with present or projected public demands or needs;

(c) The extent to which the governmental unit has operated in the public interest and the extent to which its operation has been impeded or enhanced by existing statutes, procedures and practices and any other circumstances, including budgetary, resource and personnel matters;

(d) The extent to which the governmental unit has recommended statutory changes to the legislature which would benefit the public as opposed to the governmental unit;

(e) An identification of other governmental units, or other programs or activities of the state government having the same or similar objectives, along with a comparison of the cost of effectiveness of such governmental units, programs or activities and any duplication of the governmental unit under review;

(f) A statement of the objectives of the governmental unit for the coming eight (8) years with the establishment of measurements of performance where feasible;

(g) The extent to which the governmental unit has encouraged participation by the public in making its rules and decisions as opposed to participation solely by its constituency;

(i) The extent to which changes are necessary in the enabling laws of the governmental unit to adequately comply with the factors listed in this subsection;

(j) The extent to which operation has been efficient and responsive to public needs;

(k) The extent to which it has been encouraged that persons regulated report to the governmental unit concerning the impact of rules decisions regarding improved service, economy of service or availability of service to the public;

(l) The extent to which the governmental unit has permitted qualified applicants to serve the public;

(m) The extent to which requirements of state and federal statutes and constitutions have been complied with by the governmental unit or the industry it regulates, or the constituency it serves;

(n) Any other relevant criteria which a reviewing committee, in its discretion, deems necessary and proper in reviewing and evaluating the sufficient public need for continuance of the respective governmental unit.

If a reviewing committee finds that a governmental unit should terminate as scheduled, then the committee's report shall include proposed legislation, which may be necessary, if any, to conform related laws to the termination of that governmental unit. If a reviewing committee finds that a governmental unit shall be continued or modified, then the reviewing committee's report shall include proposed legislation necessary to accomplish continuation or modification.

2-8-101. Purpose. (1) The legislature finds state government actions have produced a substantial increase in numbers of agencies, growth of programs, and proliferation of rules. The legislature questions whether conditions causing the establishment of these agencies, programs, and rules have not changed to such an extent as to remove the need for some or all of the agencies, programs, and rules.

(2) It is the intent of the legislature, by establishing a system of periodic evaluation of the need for and the performance of agencies preparatory to termination, modification, or reestablishment, to be in a better position to ensure as follows:

(a) The executive department is responsive to the needs of all of the people of the state.

(b) No agency, program, or rule exists which is not responsive to those needs.

(c) No profession, occupation, business, industry, or other endeavor is subject to the state's regulatory power unless the exercise of such power is necessary to protect the public health, safety, or welfare from significant and discernible harm or damage. The exercise of the state's police power shall be done only to the extent necessary for that purpose.

(d) The state may not regulate a profession, occupation, industry, business, or other endeavor in a manner which will unreasonably adversely affect the competitive market.

(e) There exists a systematic legislative review of the need for and public benefits derived from a program or function which licenses or otherwise regulates a profession, occupation, business, industry, or other endeavor by a periodic review and termination, modification, or reestablishment of such programs and functions.

Effective dates. (1) Sec. 13, Ch. 325, L. 1979, provided: "Sections 1 and 2 are effective on passage and approval." Ch. 325 reestablished the board of landscape architects and was approved March 26, 1979.

(2) Sec. 27, Ch. 684, L. 1979, provided: "Sections 1 and 2 are effective on passage and approval." Ch. 684 reestablished the board of public accountants and was approved May 9, 1979.

2-8-104. Termination of future regulatory agencies. Any agency or program created in part to regulate any profession, occupation, business, or other endeavor by law enacted after January 1, 1977, shall terminate on July 1 of the year of the third regular biennial legislative session following enactment of such law. Any such agency or program shall be reviewed as required in 2-8-111 through 2-8-122, and such review shall be completed prior to the convening of the third regular biennial legislative session following enactment of such law.

History: En. 82-4609 by Sec. 9, Ch. 562, L. 1979; R.C.M. 1947, 82-4609.

2-8-105 through 2-8-110 reserved.

2-8-111. Prereview agency responsibilities. An agency designated by 2-8-103 or 2-8-104 for termination shall by 22 months preceding the date set for termination:

(1) delineate goals of programs for which it is responsible, which goals reflect the state's constitution, statutes, and authoritative judicial, legislative, and executive decisions or pronouncements;

(2) delineate objectives of programs and layout clearly enough to be tested, the logic in the assumptions linking expenditures to outcome anticipated, outcome anticipated to objectives, and objectives to impact on problems addressed in goals.

History: En. 82-4605 by Sec. 5, Ch. 562, L. 1977; R.C.M. 1947, 82-4605.

2-8-112. Legislative audit committee review and report—review criteria. (1) The legislative audit committee is responsible for having conducted a review of each agency scheduled for termination by 2-8-103. The review shall be completed at least 6 months prior to the date set for termination.

(2) The review conducted shall include a performance audit of the agency and a thorough examination of the following:

(a) Would the absence of regulation significantly harm or endanger the public health, safety, or welfare?

(b) Is there a reasonable relationship between the exercise of the state's police power and the protection of the public health, safety, or welfare?

(c) Is there another less restrictive method of regulation available which could adequately protect the public?

(d) Does the regulation have the effect of directly or indirectly increasing the costs of any goods or services involved and, if so, to what degree?

(e) Is the increase in cost more harmful to the public than the harm which could result from the absence of regulation?

(f) Are all facets of the regulatory process designed solely for the purpose of and have as their primary effect the protection of the public?

(3) The legislative audit committee shall assist in the implementation of the provisions of this part and shall establish administrative procedures which facilitate the review and evaluation as required in this part.

(4) Upon completion of its review, the legislative audit committee shall make a report of its recommendations for continuation, modification, or termination and submit a proposed bill for the ensuing legislative session. If termination is recommended, the bill should repeal or otherwise deal with all statutes and parts of statutes for which the agency reviewed is responsible.

History: En. 82-4604 by Sec. 4, Ch. 562, L. 1977; R.C.M. 1947, 82-4604.

2-8-113. Hearings by standing committee—criteria for termination. (1) Prior to abolishment of an agency terminated by 2-8-103 or 2-8-104, the appropriate standing committee in each house of the legislature or a joint committee of both houses composed of members of the standing committee assigned to conduct the hearing shall hold a public hearing, receiving testimony from the public and the head of the department to which the agency involved is attached, the head of the agency involved, and persons who conducted the review.

(2) In the event termination is recommended by the legislative audit committee, the agency has the burden of demonstrating a public need for its continued existence and the extent to which a change in the composition, structure, and operation of the agency would increase the protection of the public health, safety, or welfare from harm or damage or decrease the adverse effect on the competitive market.

(3) In determining whether to reestablish an agency, the legislature shall consider the performance audit and review conducted by the legislative audit committee, the public testimony responsive to the questions set forth in subsection (2) of 2-8-112, and other matters considered relevant by the committee.

History: En. 82-4606 by Sec. 6, Ch. 562, L. 1977; R.C.M. 1947, 82-4606.

2-8-114 through 2-8-120 reserved.

2-8-121. Effect of termination. Unless otherwise provided, upon termination, each agency or unit shall continue in existence until July 1 of the next succeeding year for the purpose of winding up its affairs. During the windup period, termination does not reduce or otherwise limit the powers or authority of each respective agency except that no action may be taken which would continue in effect beyond the 1-year windup period. Upon the expiration of the 1 year after termination, each agency not modified or reestablished shall be abolished and all unexpended balances of appropriations, allocations, or other funds shall revert to the fund from which they were appropriated or, if that fund is abolished, to the general fund.

History: En. 82-4607 by Sec. 7, Ch. 562, L. 1977; R.C.M. 1947, 82-4607; amd. Sec. 2, Ch. 497, L. 1979.

2-8-122. Reestablishment. (1) Any agency scheduled for termination under this part or any subsequent act may be reestablished by the legislature for any period of time specified by law, not to exceed 6 years, at the end of which time the legislature shall again review the agency pursuant to 2-8-112 and may again reestablish, modify, or allow the termination of the agency pursuant to this section.

(2) No more than one agency may be continued or reestablished in any bill for an act, and the agency shall be mentioned in the bill's title.

LEGISLATIVE REVIEW OF PUBLIC AGENCIES

Nev. Rev. Stat. § 232B.010 et seq. (1979)

CHAPTER 232B.—LEGISLATIVE REVIEW OF PUBLIC AGENCIES

CROSS REFERENCES

Administrative regulation, review of, NRS 233B.067 et seq.
Federal regulations, review by legislature, NRS 218.660 et seq.
Legislative commission, legislative counsel bureau, NRS 218.660 et seq.

232B.010 "Agency" defined. As used in this chapter, unless the context otherwise requires, "agency" means any public agency which the legislature has designated to be the subject of a review by the legislative commission.

232B.020 Legislative findings. The legislature finds that:

1. There has been a substantial increase in the number of agencies within state government, and a corresponding growth of administrative programs and regulations.

2. The proliferation of agencies, programs and regulations has occurred without sufficient accountability for the programs and regulations by the agencies or review by the legislature.

3. By establishing a method of terminating, continuing or reestablishing agencies in state government, the legislature will be able to evaluate the need for continuing present agencies or creating new agencies.

(Added to NRS by 1979, 1838)

232B.030 Termination of agency: Winding up affairs; limitation upon contracts; disposal of property, assets, liabilities.

1. An agency may continue in existence until July 1 of the year immediately succeeding the effective date of its termination for the purpose of winding up its affairs, unless the agency has been consolidated with another.

2. The powers and duties of an agency are not abrogated or otherwise limited during the period between its termination and the following July 1, but no agency may enter into or let any contract, the performance of which extends beyond July 1 of the year immediately following the year in which it is terminated.

3. The director of the department of general services is responsible for disposing of any property of a terminated agency. All assets and liabilities of an agency which has been consolidated with another must be taken over by the successor agency. Money in the state treasury which is held in a special fund for an agency which has been terminated reverts to the state general fund on July 1 of the year immediately following the year in which the agency was terminated.

(Added to NRS by 1979, 1838)

232B.040 Review of agencies by legislative commission: Appointment of committees, subcommittees; report to legislature.

1. The legislative commission shall conduct the reviews of agencies directed by the legislature.

2. The legislative commission shall determine the membership and method of appointment of committees or subcommittees appointed to carry out the reviews.

3. The legislative commission shall transmit its review and recommendations to the legislature at the beginning of its next regular session.

(Added to NRS by 1979, 1839)

232B.050 Review of agencies by legislative commission: Time; hearings; determinations.

1. The legislative commission and the legislative counsel bureau shall conduct a review of the need for and the efficiency of each agency which is to be terminated, beginning on July 1 of the second year preceding the scheduled date of termination.

2. The legislative commission shall conduct public hearings for the purpose of obtaining comments on, and may require the legislative counsel bureau to submit reports on, the need for the continued operation of an agency, and its efficiency.

3. In conducting its review of any agency, the legislative commission shall determine whether the agency is:

(a) Complying with requirements for affirmative action.

(b) Operating in the public interest.

(c) Recommending statutory changes which will benefit the general public.

(d) Requiring reports to show the effect of its operations on the general public regarding improvement, economy and availability of service.

(e) Encouraging and permitting participation by the general public when it proposes regulations or adopts them.

(f) Disposing effectively with complaints filed with the agency.

4. As part of the consideration of each agency, the legislative commission shall include the agency's:

(a) Statement of its objectives and programs.

(b) Conclusion concerning the effectiveness of its objectives and programs.

(c) Recommendations for statutory changes which are necessary for the agency to carry out its objectives and programs.

(d) Evaluation of its objectives and programs for the ensuing fiscal year.

5. In concluding its review of a regulatory agency, the legislative commission shall, after complying with the requirements of subsections 3 and 4, consider the need for the continued operation of the agency by obtaining answers to the following questions:

(a) Would the absence of regulation significantly harm or endanger the public health, safety or welfare?

(b) Is there a reasonable relationship between the exercise of the state's police power and the protection of the public health, safety or welfare?

(c) Is there another, less restrictive, method of regulation which could adequately protect the public?

(d) Does regulation have the effect of directly or indirectly increasing the cost of any goods or services involved and, if so, to what degree?

(e) Is the increase in cost, if any, more harmful to the public than the harm which could result from the absence of regulation?

(f) Is the entire regulatory process designed solely for the purpose of, and does it have as its primary effect, the protection of the public?

6. If the legislative commission finds that the answers to questions about the need for the agency are generally affirmative, it shall determine whether the agency is operating efficiently by applying the following criteria:

(a) The agency has permitted qualified applicants to serve the public;

(b) Requirements of state and federal law for affirmative action have been met by the agency and the industry or profession which it regulates;

(c) The agency has operated in the public interest, and the extent to which its operation in the public interest has been impeded or aided by existing statutes and by other circumstances, including budget and personnel matters;

(d) The agency has recommended changes to the statutes which would benefit the public rather than the persons it regulates;

(e) The agency has required the persons whom it regulates to report the effect of regulations and decisions of the agency on the public, particularly regarding improvements in economy and quality of service;

(f) Persons regulated by the agency have been required to assess problems in the industry of profession which affect the public;

(g) The agency has encouraged participation by the public in making its regulations, as opposed to encouraging participation only by the persons it regulates; and

(h) The agency handles formal complaints from the public concerning persons subject to its regulation efficiently and with dispatch.

(Added to NRS by 1979, 1839)

232B.060 Review of agencies by legislative commission: Sources of information; reports of legislative counsel bureau; burden of proof.

1. At any hearing held to determine whether an agency should be terminated, consolidated with another agency or continued, information may be presented by:

(a) Members of the general public;

(b) Any person who is regulated by the agency; and

(C) Representatives of the agency.

2. The legislative commission shall consider any report submitted to it by the legislative counsel bureau.

3. An agency has the burden of proving that there is a public need for its continued existence or regulatory function.

II. Not later than the third legislative day of each regular biennial legislative session, the sunset committee shall submit to the relevant committees of the house and senate, as determined by RSA 17-G: 6, a report for each program appropriation unit scheduled for review during that year. In preparing said report the sunset committee shall work in consultation with the relevant house and senate committees. Said report shall include but not be limited to the following: [Amended 1979, 74: 10, eff. April 19, 1979.]

(a) the law or laws under which such program or agency was created and carries on its activities;

(e) the objectives of the program or agency during the next 6 fiscal years, as required by RSA 9: 4.

II-a. The director of legislative services shall submit to the relevant committees of the house and senate, as determined by RSA 17-G: 6, an analysis of the rules of each agency listed in the termination schedule established under RSA 17-G: 5. Not later than 14 calendar days after said hearing the committee shall report to the house its recommendations as to the agency. Such report shall include an identification of other government programs having the same or similar objectives, and the recommendation of the committee with respect to the elimination or consolidation of such programs. No bill, resolution, or amendment thereto, renewing or extending any agency, program, or unit, shall be considered in either house until after the standing committee overseeing said agency has submitted the report, required by paragraphs III and IV of this section, to that house.

B. In making its recommendation to the legislature, the legislative finance committee shall take into the consideration all or applicable parts of the following:

(1) the extent to which the agency has permitted qualified applicants to serve the public;

(2) the extent to which the agency has operated in the public interest, and the extent to which its operation has been impeded or enhanced by existing statutes, procedures and practices and by budgetary, resources [resource] and personnel matters;

(3) the extent to which the agency has recommended statutory changes to the legislature which would benefit the public as opposed to the persons it regulates;

(5) the extent to which persons regulated by the agency have been required to assess problems in their industry which affect the public;

(6) the extent to which the agency has encouraged participation by the public in making its rules and decisions as opposed to participation solely by the persons it regulates;

4-29-101. Short title

This chapter shall be known and may be cited as the "Tennessee Governmental Entity Review Law." [Acts 1977, ch. 452, § 1; T.C.A., § 4-2901.]

4-29-102. Purpose

The general assembly finds and declares that state regulation of its citizens, business and industry is increasing at an alarming rate and that a method of reviewing such regulation is necessary to insure that unnecessary and harmful regulation is abolished and that legitimate, necessary regulation is conducted efficiently and economically. It is the intent of the general assembly by this chapter to provide a responsible method to review state governmental entities to insure that state governmental regulation is beneficial rather than detrimental to the public interest of the citizens of Tennessee. [Acts 1977, ch. 452, § 2; T.C.A., § 4-2902.]

4-29-103. Review committees—Joint evaluation committee

The speaker of the house of representatives and the speaker of the senate shall designate appropriate committees in their respective houses to conduct the review of governmental entities as provided in this chapter. The chairmen of such committees shall appoint a subcommittee to conduct the review of each governmental entity.

The appropriate subcommittees appointed in the senate and in the house of representatives shall meet as a joint committee as the evaluation committee to review each governmental entity assigned to such committee. There shall be an equal number of senators and representatives on the two (2) subcommittees and committees when meeting as a joint evaluation committee for the review of any specific governmental entity.

Members of the evaluation committee shall serve until their successors are appointed in accordance with this section so long as such members remain members of the general assembly. Any member of the evaluation committee who ceases to be a member of the general assembly shall cease to be a member of the evaluation committee on the same date his membership in the general assembly ceases, as provided in the Constitution of the state of Tennessee. In the event a majority of the membership of any subcommittee comprising an evaluation committee shall cease to be members of the general assembly, the speaker of the house in which such vacancies occur shall designate members of that house to interim appointments until such time as the evaluation committee is reconstituted as provided in this section. [Acts 1977, ch. 452, § 9; T.C.A., § 4-2909.]

Texas Sunset Act

Tex. Rev. Civ. Stat. Ann. art. 5429k (1982–83 Cum. Ann. Pocket Part)

Art. 5429k. Sunset Act

SHORT TITLE

SECTION 1.101. This Act may be cited as the Texas Sunset Act.

DEFINITIONS

SEC. 1.02. In this Act:

(1) "State agency" means:

(A) an agency that is expressly made subject to this Act; or

(B) a department, commission, board, or other agency (except a university system or an institution of higher education as defined in Section 61.003, Texas Education Code, as amended) that:

(i) is created by statute after January 1, 1977;

(ii) is part of any branch of state government; and

(iii) has authority that is not limited to a geographical portion of the state.

(2) "Advisory committee" means a committee, council, commission, or other entity created by or pursuant to state law whose primary function is to advise a state agency.

(3) "Commission" means the Sunset Advisory Commission.

SUNSET ADVISORY COMMISSION

SEC. 1.03. (a) The Sunset Advisory Commission is created.

(b) The commission is composed of four members of the senate and one public member appointed by the lieutenant governor and four members of the house and one public member appointed by the speaker of the house. Each appointing authority may designate himself as one of the legislative appointees. A person is not eligible for appointment as a public member if the person or the person's spouse:

(1) is regulated by a state agency that is to be reviewed by the commission during the term for which the person would serve; or

(2) is employed by, participates in the management of, or has, directly or indirectly, more than a 10 percent interest in a business entity or other organization regulated by a state agency that is to be reviewed by the commission during the term for which the person would serve.

(c) It is a ground for removal of a public member from the commission if the member does not have at the time of appointment or maintain during the service on the commission the qualifications required by Subsection (b) of this section for appointment to the commission. The validity of an action of the commission is not affected by the fact that it was taken when a ground for removal of a public member from the commission existed.

(d) Legislative members appointed by the lieutenant governor and the speaker of the house serve four-year terms, with terms staggered so that the terms of one-half of the legislative members appointed by the lieutenant governor and of one-half of the legislative members appointed by the speaker expire every two years. If the lieutenant governor or the speaker serves on the commission, he continues to serve until resignation from the commission or until he ceases to hold the office. Public members appointed by the lieutenant governor or speaker serve two-year terms.

(e) Once a person has served six years on the commission, he is not eligible for appointment to another term or part of a term. A member who has served more than half of a full term may not be appointed to an immediately succeeding term. These restrictions do not apply to the lieutenant governor or the speaker of the house.

(f) Each appointed authority shall make his appointments to the commission before July 1 of each odd-numbered year.

(g) A legislative member of the commission vacates his position on the commission when he ceases to be a member of the house from which he was appointed.

(h) A vacancy on the commission shall be filled for the unexpired part of the term in the same manner as the original appointment.

(i) The commission shall have, as presiding officers, a chairman and a vice-chairman. The chairmanship and vice-chairmanship must alternate every two years between the two membership groups appointed by the lieutenant governor and the speaker of the house. The chairman and vice-chairman may not be from the same membership group. The lieutenant governor shall designate a presiding officer from his appointed membership group and the speaker of the house shall designate the other presiding officer from his appointed membership group.

(j) A quorum shall consist of at least six members of the commission. No final action or recommendation may be made unless approved by a record vote of a majority of the full membership of the commission.

(k) Each member of the commission is entitled to reimbursement for the expenses he actually and necessarily incurs in performing the duties of the commission. Each legislative member is entitled to reimbursement from the appropriate fund of the member's respective house. Each public member is entitled to reimbursement from funds appropriated to the commission.

STAFF

SEC. 1.04. (a) The commission shall employ an executive director to act as the executive head of the commission.

(b) The executive director shall employ persons necessary to carry out the provisions of this Act through funds made available by the legislature.

(c) The chairman and vice-chairman of the commission each may employ staff to work for them on matters related to the activities of the commission.

REPORT ON ADVISORY COMMITTEES

Sec. 1.05. Before October 30 of each calendar year, each state agency shall file an annual report with the Secretary of State to register all of its advisory committees and report the following information regarding the agency's advisory committees:

(1) the official names of the advisory committees;

(2) the statutory authority, if any, for the advisory committees;

(3) the advisory committees' objectives and functions;

(4) the period of time necessary for the advisory committees to carry out their objectives;

(5) a reference to the reports that the advisory committees have presented to the agency;

(6) the names and occupations of the current members of the advisory committees; and

(7) other available information that will assist the staff and the commission to determine the need for continuing the advisory committees.

AGENCY REPORT TO COMMISSION

Sec. 106. Before October 30 of the odd-numbered year before the year a state agency is abolished according to this Act, the agency shall report to the commission:

(1) information regarding the application to the agency of the criteria in Section 1.10 of this Act;

(2) information specified in Section 1.05 of this Act regarding each of the agency's advisory committees; and

(3) any other information that the agency considers appropriate or that is requested by the commission.

COMMISSION DUTIES

Sec. 1.07. Before September 1 of the even-numbered year before the year a state agency and its advisory committees are abolished according to this Act, the commission shall:

(1) review and take action necessary to verify the reports submitted by the agency under Section 1.06 of this Act;

(2) consult the Legislative Budget Board, the Governor's Budget and Planning Office, the state auditor, and the comptroller of public accounts, or their successors, on the application to the agency of the criteria provided in Section 1.10 of this Act;

(3) conduct a performance evaluation of the agency based on the criteria provided in Section 1.10 of this Act and prepare a written report, which is a public record; and

(4) review the implementation of commission recommendations contained in the reports presented to the legislature during the preceding legislative session.

PUBLIC HEARINGS

Sec. 1.08. Between September 1 and December 1 of the calendar year before the year a state agency and its advisory committees are abolished according to this Act, the commission shall conduct public hearings on but not limited to the application to the agency of the criteria provided in Section 1.10 of this Act, except that the commission may hold the public hearings before September 1 if the evaluation required by Section 1.07(3) of this Act has been completed and made available to the public.

COMMISSION REPORT

SEC. 1.09. At each regular session, the commission shall present to the legislature and the governor a report on agencies and advisory committees scheduled to be abolished. In the report the commission shall include its specific findings with regard to each of the criteria set forth in Section 1.10 of this Act, its recommendations based on the matters set forth in Section 1.11 of this Act, and other information considered necessary by the commission for a complete evaluation of the agency.

CRITERIA FOR REVIEW

SEC. 1.10. The staff and the commission shall consider the following criteria in determing whether a public need exists for the continuation of a state agency or its advisory committees or for the performance of the functions of the agency or its advisory committees:

(1) the efficiency with which the agency or advisory committee operates;

(2) an identification of the objectives intended for the agency or advisory committee and the problem or need which the agency or advisory committee was intended to address, the extent to which the objectives have been achieved, and any activities of the agency in addition to those granted by statute and the authority for these activities;

(3) an assessment of less restrictive or other alternative methods of performing any regulation that the agency performs which could adequately protect the public;

(4) the extent to which the advisory committee is needed and is used;

(5) the extent to which the jurisdiction of the agency and the programs administered by the agency overlap or duplicate those of other agencies and the extent to which the programs administered by the agency can be consolidated with the programs of other state agencies;

(6) whether the agency has recommended to the legislature statutory changes calculated to be of benefit to the public rather than to an occupation, business, or institution that the agency regulates;

(7) the promptness and effectiveness with which the agency disposes of complaints concerning persons affected by the agency;

(8) the extent to which the agency has encouraged participation by the public is making its rules and decisions as opposed to participation solely by those it regulates, and the extent to which the public participation has resulted in rules compatible with the objectives of the agency;

(9) the extent to which the agency has complied with applicable requirements of an agency of the United States or of this state regarding equality of employment opportunity and the rights and privacy of individuals;

(10) the extent to which changes are necessary in the enabling statutes of the agency so that the agency can adequately comply with the criteria listed in this section;

(11) the extent to which the agency issues and enforces rules relating to potential conflict of interests of its employees;

(12) the extent to which the agency complies with the "Open Records Act," Chapter 424, Acts of the 63rd Legislature, Regular Session, 1973, as amended (Article 6252-17a, Vernon's Texas Civil Statutes), and with the "Open Meetings Act," Chapter 271, Acts of the 60th Legislature, Regular Session, 1967, as amended (Article 6252-17, Vernon's Texas Civil Statutes); and

(13) the impact in terms of federal intervention or loss of federal funds if the agency is abolished.

RECOMMENDATIONS

SEC. 1.11. In its report on a state agency, the commission shall:

(1) make recommendations on the abolition, continuation, or reorganization of each affected state agency and its advisory committees and on the need for the performance of the functions of the agency and its advisory committees;

(2) make recommendations on the consolidation, transfer, or reorganization of programs within state agencies not under review when such programs duplicate functions performed in agencies under review;

(3) recommend appropriation levels for each state agency and advisory committee for which abolition or reorganization is recommended under Subdivisions (1) and (2) of this section; and

(4) include drafts of legislation necessary to carry out the commission's recommendations under Subdivisions (1) and (2) of this section.

RULES

SEC. 1.12. The commission shall adopt rules necessary to carry out this Act.

ABOLITION OF ADVISORY COMMITTEES

SEC. 1.13. Except as otherwise expressly provided by law, every advisory committee whose primary function is to advise a particular state agency is abolished on the date set for abolition of the agency unless the advisory committee is expressly continued by law.

AGENCIES CREATED IN FUTURE

SEC. 1.14. Every state agency by law enacted after January 1, 1977, is subject to this Act and to this section except as otherwise expressly provided by the law creating the agency. A state agency created by law enacted in a fiscal biennium is abolished at the end of the sixth succeeding fiscal biennium unless continued by law.

CONTINUATION BY LAW

SEC. 1.15. (a) During the regular session immediately preceding the abolition of a state agency or an advisory committee that is subject to this Act, the legislature by law may continue the agency or advisory committee for a period not to exceed 12 years.

(b) Nothing in this Act shall be construed to prohibit the legislature from terminating a state agency or advisory committee subject to this Act at a date earlier than that provided in this Act. Nothing in this Act shall be construed to prohibit the legislature from considering any other legislation relative to a state agency or advisory committee subject to this Act.

LEGISLATIVE CONSIDERATION

SEC. 1.16. (a) No more than one state agency and its functions and advisory committees may be considered for continuation, transfer, or modification in a bill, except that when consolidation of agencies or advisory committees or their functions is proposed, only the agencies or advisory committees involved in the consolidation may be considered in a legislative bill.

(b) In a bill to continue a state agency, to transfer its functions, or to consolidate it with another agency, the affected agency or agencies shall be mentioned in the title of the bill.

AFTER TERMINATION

SEC. 1.17. (a) On abolishment in the odd-numbered year, each state agency may continue in existence until September 1 of the next succeeding year for the purpose of concluding its business. Unless otherwise provided by law abolishment does not reduce or otherwise limit the powers or authority of each respective state agency during such concluding year. Upon the expiration of the year period after abolishment each respective state agency is terminated and shall cease all activities.

(b) Any unobligated and unexpected appropriations of a state agency or advisory committee lapse on September 1 of the even-numbered year after abolishment of the agency or advisory committee.

(c) All money in a dedicated fund of an abolished state agency or advisory committee on September 1 of the even-numbered year after abolishment of the agency or advisory committee is transferred to the General Revenue Fund, except as provided in Subsection (f) of this section and as otherwise provided by law. The part of the law dedicating the money to a specific fund of an abolished agency becomes void on September 1 of the even-numbered year after abolishment of the agency.

(d) If an abolished state agency or advisory committee is funded in the General Appropriations Act for both years of the biennium, the abolished agency or advisory committee may not spend or obligate any of the money appropriated to it for the second year of the biennium, unless otherwise provided by law or rider in the appropriations bill.

(e) Property and records in the custody of a state agency or advisory committee on September 1 of the even-numbered year after abolishment of the agency or advisory committee are transferred to the State Board of Control, except that where an appropriate state agency is designed by the governor pursuant to Subsection (f) of this section, the property and records are transferred to the agency so designated.

(f) The legislature recognizes the state's continuing obligation to pay bonded indebtedness incurred by any agency abolished by the terms of the Act, and it is not the intention of this Act to impair or impede the payment of bonded indebtedness in accordance with its terms. If an abolished state agency has remaining outstanding bonded indebtedness, the bonds remain valid and enforceable in accordance with their terms and subject to all applicable terms and conditions of the laws and proceedings authorizing the bonds, notwithstanding the abolishment of the agency that issued the bonds. The governor shall designate an appropriate state agency, which shall continue to carry out all covenants contained in the bonds and the proceedings authorizing them, including the issuance of bonds to complete the construction of projects, and shall provide payment from the sources of payment of the bonds in accordance with the terms of the bonds, whether from taxes, revenues, or otherwise, until the bonds and interest on the bonds are paid in full. All funds established by laws or proceedings authorizing the bonds shall remain with the State Treasurer or previously designated trustees, if so provided in the proceedings; if not so provided, the funds shall be transferred to the designated state agency.

SUBPOENA POWER

SEC. 1.18. The commission may issue process to witnesses at any place in the state and compel their attendance and the production of books, records, papers, and other objects that may be necessary or proper for the purposes of the committee proceedings. The commission may issue attachments when necessary to obtain compliance with subpoenas or other process, which may be addressed to and served by any peace officer in this state. The chairman of the commission shall issue, in the name of the commission, the subpoenas that a majority of the commission may direct. In the event the chairman is absent, the designee of the chairman is authorized to issue subpoenas or any other process in the same manner as the chairman. Witnesses attending proceedings of the commission under process are entitled to the same mileage and per diem as allowed witnesses before a grand jury in this state. The testimony taken under subpoena must be reduced to writing and must be given under oath subject to the penalties of perjury.

ASSISTANCE OF AND ACCESS TO STATE AGENCIES

SEC. 1.19 (a) The commission may request the assistance of state agencies and officers, and they shall assist the commission when requested to do so.

(b) In carrying out their functions under this Act, the commission or its designated staff member may inspect the records, documents, and files of any state agency.

RELOCATION OF EMPLOYEES

Sec. 1.20. When an employee is displayed because of the abolishment, reorganization, or continuing of a state agency or its advisory committees, the agency and the Texas Employment Commission shall make a reasonable effort to relocate the displaced employee.

SAVING CLAUSE

Sec. 1.21. Except as otherwise expressly provided, abolition of a state agency does not affect rights and duties that matured, penalties that were incurred, civil or criminal liabilities that arose, or proceedings that were begun before the effective date of the abolition.

SUNSET ACT

Utah Code Ann. § 63-55-1 et seq. (1978 Repl. volume, 1981 Pocket Supp.)

CHAPTER 55. SUNSET ACT

Sec.
63-55-2. Periodic termination of boards, divisions, offices, and agencies—Legislative review
63-55-7. Specific repeal of acts—Effective dates.

63-55-2. Periodic termination of boards, divisions, offices, and agencies—Legislative review.

The legislature finds that no profession, occupation, or business should be subject to state regulation unless the exercise of such power is necessary to protect the health, safety, and welfare of its citizens.

In order to make state government more productive and responsive to the people, it is necessary to place all regulatory boards, divisions, offices, and agencies, set forth in section 63-55-7, on a six-year reauthorization schedule. Any state board, division, office or agency scheduled for termination under this act shall terminate unless the legislature through affirmative act reauthorizes its continued existence for another six years. In no event shall the continued existence of a board, division, office, or agency subject to this act be reauthorized for a period of more than six years.

History. L. 1977, ch. 240, § 2; 1979, ch. 226, § 1.

Compiler's Notes. The 1979 amendment, in the second paragraph, substituted "regulatory boards" for "legislatively created state boards"; inserted "set forth in section 63-55-7"; and made minor changes in punctuation.

This act shall be known and may be cited as the "Utah Sunset Act."

History: L. 1977, ch. 240, § 1.

Title of Act. An act relating to state government; providing for the scheduled termination of legislatively created state regulatory and licensing boards, divisions, offices, and agencies every six years; providing for legislative review before scheduled termination; providing guidelines for the conduct of such review; and providing for legislative reauthorization of terminated state boards, divisions, offices and agencies.—Laws 1977, ch. 240.

63-55-2. Periodic termination of boards, divisions, offices, and agencies—Legislative review.

The legislature finds that no profession, occupation, or business should be subject to state regulation unless the exercise of such power is necessary to protect the health, safety, and welfare of its citizens.

In order to make state government more productive and responsive to the people, it is necessary to place all legislatively created state boards, divisions, offices and agencies on a six-year reauthorization schedule. Any state board, division, office or agency scheduled for termination under this act shall terminate unless the legislature through affirmative act reauthorizes its continued existence for another six years. In no event shall the continued existence of a board, division, office or agency subject to this act be reauthorized for a period of more than six years.

History: L. 1977, ch. 240, § 2.

63-55-3. Guidelines for conduct of review.

Legislative study committees or other committees assigned by the legislative management committee shall review each state board, division, office, and agency scheduled for termination. Such review shall begin not later than one year before scheduled termination and end before January 1 of the year in which termination is scheduled. In determining whether to reauthorize the authority, the legislature shall consider the following:

(1) The extent to which the board, division, office or agency has operated in the public interest;

(2) The extent to which existing statutes [interfere] with or assist the legitimate functions of the agency, and any other circumstances including budgetary, resource, and personnel matters, that have a bearing on the capacity of the agency to serve the public interest;

(3) The extent to which the public has been encouraged to participate in the promulgation of its rules and regulations;

(4) The extent to which its programs and services are duplicative of those offered by other state agencies;

(5) The extent to which the objectives of the authority have been accomplished and their public benefit;

(6) The adverse effect on the public, if any, of termination of the authority; and

(7) Any other matter deemed relevant.

History: L. 1977, ch. 240, § 3.

Compiler's Notes. The word "interfere" in subd. (2) was bracketed by the compiler because it was spelled "interfer" in the act.

66-55-4. Terminated authority—Winding up of affairs

Any authority terminated under this act may continue in existence, if necessary to wind up its affairs, until July 1 of the year next succeeding the year of termination.

History: L. 1977, ch. 240, § 4.

63-55-5. Reviewing committee—Report of recommendations

The reviewing committee shall submit a report of its recommendations including proposed legislation and recommendations concerning functions and programs for which the authority is responsible to the speaker of the house and the president of the senate for distribution to legislators before January 1 of the year in which a respective authority is scheduled for termination.

History: L. 1977, ch. 240, § 5.

63-55-6. Legislative reauthorization of necessary authority

If the legislature determines that the public interest requires the continued existence of the authority, it shall enact appropriate legislation to reauthorize the authority.

History: L. 1977, ch. 240, § 6.

63-55-7. Specific repeal of acts—Effective dates

REVIEW OF LICENSING STATUTES, BOARDS AND COMMISSIONS

Vt. Stat. Ann. tit. 26, § 3101 et seq. (1979 Cum. Pocket Supp.)

CHAPTER 57. REVIEW OF LICENSING STATUTES, BOARDS AND COMMISSIONS

Sec.

3101. Policy and purpose.
3102. Requirement for review; automatic repeal, and new law, if any.
3103. Comprehensive plan.
3104. Process for review.
3105. Criteria and standards for review.

§ 3101. Policy and purpose

The general assembly finds that:

(1) The reason for regulating professions and occupations is to protect the public health, safety and welfare;

(2) The state regulates professions and occupations through boards (which in this chapter include commissions) which issue licenses, certificates of permits, set standards of practice and enforce those standards;

(3) Regulation has a significant impact on nearly every citizen because it affects the quality, cost and availability of important services;

(4) Problems which require regulation by boards change over time;

(5) The legislature needs to know what the boards are doing, endure their accountability and determine whether they have adequate resources and authority to carry out the intent of the legislature;

(6) Therefore the legislature has a need periodically to review, evaluate and make a decision based on current facts whether and how to regulate a particular profession or occupation;

(7) To do this, the legislature needs to examine both the licensing laws and the activities of the boards;

(8) The legislature needs to have an orderly procedure to make sure that the review is thorough, the evaluation fair and the decision timely;

(9) These results will be properly achieved by a procedure which provides:

(A) for review and evaluation;

(B) for automatic repeal of the existing licensing law; and

(C) for enactment if voted by the legislature of new law or the reenactment of the law with or without amendment.—Added 1977, No. 183 (Adj. Sess.) § 1, eff. date, see note set out below.

Effective date; termination of chapter. 1977, No. 183 (Adj. Sess.), § 3, provided: "This act [which added this chapter] shall take effect July 1, 1978, and shall terminate July 1, 1985, unless previously reenacted with or without amendment. However, section 2 shall take effect from passage."

§ 3102. Requirement for review; antomatic repeal, and new law, if any

(a) Each licensing law enumerated below in subsection (b) of this section, each board related thereto, and the activities resulting shall be subject to periodic review in the manner provided in section 3104 of this title and on the basis of the criteria established in section 3105 of this title.

(b) The following laws are repealed automatically by operation of this section on the dates listed. In order for regulation of the occupation or profession to continue, there must be a positive decision by the legislature through the enactment of a new law or the reenactment of the law with or without amendment.

(1) July 1, 1981:

(A) Chapter 23 of Title 4 on attorneys;

(B) Chapter 43 of Title 26 on veterinary science;

(C) Chapter 49 of Title 26 on radio and television technicians;

(D) Chapter 1 of Title 26 on accountants;

(E) Chapter 229 of Title 32 on private detectives;

(2) July 1, 1982:

(A) Chapter 29 of Title 26 on optometry;

(B) Chapter 35 of Title 26 on pharmacy;

(C) Chapter 37 of Title 26 on physical therapists;

(D) Chapter 51 of Title 26 on radiological technologists;

(E) Chapter 55 of Title 26 on psychologists;

(F) Chapter 47 of Title 26 on opticians;

(E) Chapter 41 of Title 26 on real estate brokers and salesmen;

(F) Chapter 45 of Title 26 on land surveyors;

(4) July 1, 1984:

(A) Chapter 7 of Title 26 on podiatry;

(B) Chapter 13 of Title 26 on dentists and dental hygienists;

(C) Chapter 23 of Title 26 on medicine and surgery;

(D) Chapter 27 of Title 26 on nursing;

(E) Chapter 31 of Title 26 on physicians' assistants;

(F) Chapter 33 of Title 26 on osteopathy;

(G) Chapter 9 of Title 26 on chiropractic;

(5) July 1, 1985:

(A) Chapter 46 of Title 18 on nursing home administrators;

(B) Chapter 5 of Title 26 on barbers;

(C) Chapter 11 of Title 26 on cosmeticians and hairdressers;

(D) Chapter 17 of Title 26 on embalmers;

(E) Chapter 21 of Title 26 on funeral directors.

(c) Any new law to regulate another profession or occupation shall be based on the relevant criteria and standards in section 3105 of this title.

(d) A law to regulate a profession or occupation, enacted at any time, remains in effect for six years from July 1 of the year in which it is passed unless otherwise specifically provided. At the end of six years, the law is repealed automatically by operation of this section. Before the end of the fifth year, the entire procedure in section 3104 of this title shall be repeated. In order for regulation of the occupation or profession to continue for a further six years, a new law must be enacted or the reenactment of the law with or without amendment must take place.

(e) This section shall not cause the dismissal of any claim or right of any citizen against any board listed above in subsection (b) or any claim or right of a board terminated pursuant to this section which is subject to litigation. Any claim of right of or against a board terminated pursuant to this section shall be assumed by the secretary of state.—Added 1977, No. 183 (Adj. Sess.), § 1, eff. date, see note set out below.

Effective date; termination of chapter. For effective date and termination of chapter, see note set out under § 3101 of this title.

§ 3101. Comprehensive plan

(a) The legislative council staff shall prepare a comprehensive plan for doing the reviews. By January 15, 1979 the chief legislative draftsman shall send the proposed plan to the speaker of the house and to the president of the senate for referral to the government operations committees for approval or amendment within 30 days.

(b) The plan shall at least:

(1) describe in detail how the reviews will be done,

(2) propose a schedule for doing the reviews,

(3) describe the form and content of the reports,

(4) indicate the proposed use of staff within the legislative council and resources within state government, and

(5) recommend a uniform format in which each licensing law should be written.—Added 1877, No. 183 (Adj. Sess.), § 1, eff. date, see note set out below.

Effective date; termination of chapter. For effective date and termination of chapter, see note set out under § 3101 of this title.

§ 3104. Process for review

(a) It is the intention of the legislature that legislative action resulting from the review of licensing laws and of boards under this chapter should be taken at least one year before a licensing law is scheduled for automatic repeal.

(b) At least twenty-one months before a law is scheduled for repeal under section 3102 of this title, the legislative council staff shall compete a preliminary review of the law and the board created by the law. The staff shall base its review on the criteria and standards in section 3105 of this title.

(c) In each case, the legislative council staff shall give adequate notice to the public that it is reviewing a particular law and board. All information and data reasonably requested for purposes of the review shall be provided by the boards. The staff shall seek comments and information from the public and from members of the profession or occupation. It also shall give the board a chance to present its position and to respond to any matters raised in the review. The staff, upon its request, shall have assistance from the department of budget and management, the auditor of accounts, the attorney general, the secretary of state, the joint fiscal committee or any other state agency.

(d) The legislative council staff shall file a separate written report for each profession and occupation with the speaker of the house and president of the senate. It shall file the reports at least two months before the first day of the next regular or adjourned legislative session. The reports shall contain:

(1) findings, alternative courses of action, and recommendations,

(2) a copy of the board's administrative rules, and

(3) appropriate legislative proposals.

(e) The speaker of the house and the president of the senate each shall send each report to a standing committee which has jurisdiction over the subject matter. The legislative council staff shall send a copy of the report to the board affected, and shall make copies available for public inspection.

(f) After considering a report each standing committee shall send its findings and recommendations to the house or the senate. Where standing committees in each house recommend enactment of a new licensing law, they shall agree in which chamber to initiate a bill. If they cannot agree, each standing committee shall initiate a bill. The proposed licensing law shall be drafted according to a uniform format recommended in the comprehensive plan.—Added 1977. No. 183 (Adj. Sess.), § 1, eff. date, see note set out below.

Effective date; termination of chapter. For effective date and termination of chapter, see note set out under § 3101 of this title.

§ 3105. Criteria and standards for review

(a) When reviewing and evaluating a licensing law, consideration shall be given at least to the following questions:

(1) What effect does regulation have on the quality, cost and availability of services?

(2) Do the problems which led the legislature to pass laws regulating the profession or occuption still exist?

(3) If there are still problems, or if new ones have occurred, are they serious enough so that regulation in some form is needed to solve them?

(4) If regulation is needed, is the present type and extent of regulation the most fair, effective and appropriate?

(5) If not, what are the alternatives?

(6) Does the licensing process effectively distinguish between those who will give good service and those who will not?

(7) Would it be better for the public health, safety and welfare to combine two or more boards?

(b) When reviewing the operation and performance of a board, consideration shall be given at least to the following questions:

(1) Have board actions been in the public interest and consistent with legislative intent?

(2) Are the board's rules complete, concise and easy to understand?

(3) Does the board use licensing standards and procedures which are fair and reasonable and which accurately measure an applicant's qualifications? Are qualified persons denied the chance to practice their profession or occupation?

(4) Does the board insure that license holders continue to meet proper standards?

(5) Does the board have a fair and efficient way to receive, investigate and resolve complaints from the public?

(6) Has the board sought ideas from the public and from those it regulates on reasonable ways to improve the service of the board and the profession or occupation regulated?

(7) Does the board give adequate public notice of its hearings and meetings and encourage public participation?

(8) Did the board make efficient and effective use of its funds, and meet its responsibilities?—Added 1977, No. 183 (Adj. Sess.), § 1, eff. date, see note set out below.

Effective date; termination of chapter. For effective date and termination of chapter, see note set out under § 3101 of this title.

43.131.020 Legislative declaration

The state legislature finds that state agencies may fail to deliver services as effectively and efficiently as is expected by the general public and as originally contemplated by the legislature. It further finds that state government actions have produced a substantial increase in numbers of agencies, growth of programs, and proliferation of rules and regulations, and that the entire process has evolved without sufficient legislative and executive oversight, regulatory accountability, or a system of checks and balances. The legislature further finds that by establishing a system for the termination, continuation, or modification of state agencies, coupled with a system of scheduled review of such agencies, it will be in a better position to evaluate the need for the continued existence of existing and future state agencies. The legislature recognizes that the executive branch shares in this duty and responsibility to assure that state government operates in an efficient, orderly, and responsive manner. [Enacted Laws 1st Ex Sess 1977 ch 289 § 2, effective June 17, 1977.]

§ 4-10-1. Short title

This article shall be known as and may be cited as the "West Virginia Sunset Law." (1979, c. 104.)

§ 4-10-2. Legislative findings

The legislature finds that state governmental actions have produced a substantial increase in the number of governmental entities, growth of programs and proliferation of rules and regulations and that the whole process developed without sufficient legislative oversight, regulatory accountability or a system of checks and balances; that often governmental entities have been created without a demonstrable need and evidence that the benefits to the public clearly justify their creation; that once established, governmental entities tend to acquire a "permanent" status, often without regard for the condition that originally gave rise to their establishment; that the personnel of such entities are often beyond the effective control of elected officials, and that efforts to force their modernization or even to review their performance and impact have typically proven difficult at best; that too often, governmental entities acquire a combination of autonomy and authority inconsistent with democratic principles as well as a capacity for self-perpetuation incompatible with principles of accountability; and that by establishing a system for the termination, continuation or reestablishment of such governmental entities, the position of the legislature to evaluate the need for the continued existence of existing and future governmental entities will be enhanced. (1979, c. 104.)

§ 4-10-3. Definitions

(4) "Person" means any individual, partnership, corporation, labor organization, association, personal representative of a decedent, trustee, trustee in bankruptcy, receiver, guardian, committee for an incompetent or conservator. (1979, c. 104.)

Following a performance and fiscal audit, as hereinafter provided, the committee shall cease further inquiry regarding any such governmental entity or program and shall report its findings and recommendations to the legislature as provided in section ten [§ 4-10-10] of this article.

In conducting such performance and fiscal audits, the committee shall consider all relevant factors and, among other things, determine the following:

(1) The nature of the objectives intended for the program or entity and the problem or need which it was intended to address, the extent to which the objectives have been achieved, and any activities of the entity or program in addition to those granted by statute and the authority for these activities;

(2) The extent to which the governmental entity or program has operated in the public interest and the extent to which its operation has been impeded or enhanced by existing statutes and any other circumstances bearing upon the governmental entity's or program's capacity or authority to operate in the public interest, including budgetary, resource and personnel matters;

(3) The extent to which the jurisdiction of the entity or program duplicates those of other entities and programs and the extent to which the entity or program or its activities could be consolidated with others;

(4) The efficiency with which the agency operates;

(5) The extent to which the governmental entity or program has recommended statutory changes to the legislature which would benefit the public;

(6) The extent to which the entity or program issues and enforces rules relating to potential conflicts of interest of its employees;

(7) The extent to which affirmative action requirements of state and federal statutes and constitutions have been complied with by the governmental entity or program;

(8) The extent to which the governmental entity or program has encouraged participation by the public in making its decisions;

(9) The impact in terms of federal intervention or loss of federal funds if the agency is abolished;

(10) The extent to which the governmental entity or program has caused an unnecessary burden on any citizen or other governmental entity or program by its decisions and activities.

The joint committee on government operations may employ such persons, skilled in the field of performance audit, as it may deem necessary to carry out its duties and responsibilities under this section. (1979, c. 104.)

§ 4-10-10. Reports by the committee

The committee shall complete its deliberations with respect to any governmental entity or program scheduled to be terminated and make a report thereon to the legislature not later than ten days after the legislature convenes in regular session in the year of the scheduled termination for the entity or program: Provided, that any such report required in the year one thousand nine hundred eighty-one, and every fourth year thereafter shall be made not later than ten days after the legislature convenes on the second Wednesday in February. Such report shall consist of a full and complete analysis of the governmental entity or program including the need for the governmental entity or program, the benefits to the public as opposed to the burden on the public and such other matters as are expressly mandated to be considered by the committee as set forth in section nine [§ 4-10-9] of this article, together with the recommendations of the committee. The committee shall make one of three recommendations: (1) The governmental entity or program be terminated as scheduled, (2) the governmental entity or program be continued and reestablished, or (3) the governmental entity or program be continued and reestablished, but the statutes governing the entity should be amended in specific ways to correct discriminatory practices and procedures, burdensome rules and regulations, lack of protection of the public interest, inefficiency, overlapping of jurisdiction with other governmental entities, unwarranted exercise of authority either in law or in fact and any other deficiencies.

Copies of such reports shall be made immediately available to all members of the legislature, to the governmental entity or program which is the subject of the report and the public generally. A copy of each report shall be formally filed by the committee with the clerk of each house. (1979, c. 104.)

§ 4-10-11. Bill for continuation and reestablishment of governmental entity

In the event the committee recommends the continuation and reestablishment of such governmental entity or program, its report shall be accompanied by a bill originating in such standing committee to effectuate its recommendation.

No bill shall provide for the continuation and reestablishment of more than one governmental entity or program. (1979, c. 104.)

§ 4-10-12. Preservation of rights and claims

Nothing in this article shall be construed as adversely affecting any right or claim by any person against a governmental entity or program or by any governmental entity or program against any person. Responsibility for prosecuting or defending any such rights or claims should the legislature fail to continue and reestablish a governmental entity or program within one year after its termination shall be assumed by the attorney general of the state. (1979, c. 104.)

§ 4-10-13. Article not to be construed as limiting new legislation

Nothing in this article shall be construed as limiting or interfering with the right of any member of the legislature to introduce or the legislature from considering any bill that would create a new state governmental entity or program or amend the law with respect to an existing one. (1979, c. 104.)

§ 4-10-14. Immediate termination of certain governmental entities

(a) The legislature finds that the following governmental entities or programs are inactive and unnecessary and should not be continued:

(a) Upon termination under W.S. 28-10-102, each agency shall continue in existence until July 1 of the next succeeding year for the purpose of winding up its affairs. During the wind-up period, termination shall not reduce or otherwise limit the powers or authority of each respective governmental agency. On July 1 of the next succeeding year after termination, each respective agency shall cease all activities.

(b) Notwithstanding the provisions of W.S. 28-10-102, any agency scheduled for termination may be continued or reestablished by the legislature for periods not to exceed six (6) years. Any newly created agency shall automatically terminate after six (6) years unless continued or reestablished by the legislature for a period not to exceed six (6) years.

(c) The management council of the Wyoming legislature shall appoint a committee of not less than five (5) legislators representing both the Wyoming house of representatives and senate, to supervise a management audit of each agency scheduled for termination under W.S. 28-10-102. Audits shall be completed at least six (6) months prior to the date established by W.S. 28-10-102 for termination. In conducting the audit, the committee shall consider the factors enumerated in subsection (e) of this section. A copy of the report shall be distributed to each member of the Wyoming legislature.

(d) Upon completion of the audit report and prior to the termination, continuation or reestablishment of any agency, the committee shall hold at least one (1) public hearing, to review the audit report and receive testimony from the public and the executive director or chairman of the agency and the agency involved. (v) The extent to which the agency has required the persons or industry it regulates to report to it concerning the impact of rules and decisions of the agency on the public regarding improved service, economy of service and availability of service;

(vi) The extent to which the agency has encouraged participation by the public in making its rules and its decisions as opposed to participation solely by the persons it regulates;

(vii) The purpose, powers, duties and functions of the agency currently performed;

(viii) The identity of all agencies under the direct advisory control of the agency under review;

(ix) Any powers, duties or functions which are inconsistent with current and projected public needs and which should be terminated or altered;

(x) Whether the agency is complying with Wyoming law and the directions of the Wyoming legislature;

(xvi) Economic impact to the Wyoming economy of the agency's rules and operations.

(g) W.S. 28-10-101 through 28-10-103 shall not cause the dismissal of any claim or right of a citizen against any agency or any claim or right of an agency terminated pursuant to W.S. 28-10-101 through 28-10-103 which is subject to litigation. The claims and rights shall be assumed by the attorney general. (Laws 1979, ch. 31, § 1.)
